HOUSE OF MOTHER'S AGENDA

The Secret of the Veda

(Extracts from the passage in "Sri Aurobindo and the Transformation of the World" read to Mother by Satprem. This unpublished manuscript would become the first rough draft of "The Adventure of Consciousness")

Nor was it insignificant that fire, *Agni*, was the core of the Vedic mysteries: *Agni*, the inner flame, the soul within us (for who can deny that the soul is fire?), the innate aspiration drawing man towards the heights; *Agni*, the ardent will within us that sees, always and forever, and remembers; *Agni*, "the priest of the sacrifice," the "divine worker," the "envoy between earth and heaven" (Rig-veda III, 3.2) "he is there in the middle of his house" (1.70.2). "The Fathers who have divine vision set him within as a child that is to be born" (IX.83.3). He is "the boy suppressed in the secret cavern" (V.2.1). "He is as if life and the breath of our existence; he is as if our eternal child" (I.66.1). "O Son of the body" (III.4.2), "O Fire, thou art the son of heaven by the body of the earth" (III.25. 1). "Immortal in mortals" (IV.2. 1), "old and outworn he grows young again and again" (11.4.5). "When he is born he becomes one who voices the godhead: when as life who grows in the mother he has been fashioned in the mother he becomes a gallop of wind in his movement" (III.29.11). "O Fire, when thou art well borne by us thou becomest the supreme growth and expansion of our being, all glory and beauty are in thy desirable hue and thy perfect vision. O Vastness, thou art the plenitude that carries us to the end of our way; thou art a multitude of riches spread out on every side" (II. 1. 12). "O Fire... Brilliant Ocean of light in which is divine vision" (III.22.2), "the Flame with his hundred treasures... O knower of all things born" (I.59).

But the divine fire is not our exclusive privilege - *Agni* exists not only in man: "He is the child of the waters, the child of the forests, the child of things stable and the child of things that move. Even in the stone he is there..." (I.70.2). [...]

But we have not yet reached the heart of the Vedic secret. The birth of *Agni*, the soul (and so many men are still unborn) is merely the start of the voyage. This inner flame seeks, it is the seeker within us, for it is a spark of the great primordial Fire and will never be satisfied until it has recovered its solar totality, "the lost sun" of which the Veda incessantly speaks. Yet even when we have risen from plane to plane and the Flame has taken successive births in the triple world of our lower existence (the physical, vital and mental world), it will still remain unsatisfied - it wants to ascend, ascend further. And soon we reach a mental frontier where there seems to be nothing to grasp any longer, nor even to see, and nothing remains but to abolish everything and leap into the ecstasy of a great Light. At this point, we feel almost painfully the imprisoning carapace of matter all around us, preventing that apotheosis of the Flame; then we understand the cry, "My kingdom is not of this world," and the insistence of India's Vedantic sages - and perhaps the sages of all worlds and all religions - that we must abandon this body to embrace the Eternal. Will our flame thus forever be truncated here below and our quest always ends in disappointment? Shall we always have to choose one or the other, to renounce earth to gain heaven?

Yet beyond the lower triple world, the Rishis had discovered "a certain fourth," *touriam svid*; they found "the vast dwelling place," "the solar world", Swar: "I have arisen from earth to the mid-world [life], I have arisen from the mid-world to heaven [mind], from the level of the firmament of heaven I have gone to the Sun-world, the Light" (Yajur-veda 17.67). And it is said, "Mortals, they achieved immortality" (Rig-veda 1. 110.4). What then was their secret? How did they pass from a "heaven of mind" to the "great heaven" without leaving the body, without, as it were, going off into ecstasies?

The secret lies in matter. Because *Agni* is imprisoned in matter and we ourselves are imprisoned there. It is said that *Agni* is "without head or feet," that it "conceals its two extremities": above, it disappears into the "great heaven" of the supraconscious (which the Rishis also called "the great ocean"), and below, it sinks into the "formless ocean" of the unconscious (which they also called "the rock"). We are truncated. But the Rishis were men of a solid realism, a true realism resting upon the Spirit; and since the summits of mind opened out upon a lacuna of light - ecstatic, to be sure, but with no hold over the world - they set upon the downward way.

L'avenir d'Auroville / Town Development Council (TDC)

September 2015 report

Reminder: This report is a synopsis of key topics discussed in regular meetings. It does not include any communication that has been published in the News & Notes or on the Auronet webpage of L'avenir d'Auroville / Town Development Council (TDC), such as community announcements, financial reports and site or building permissions.

Regular members: Cristo (Regional Development), Jacqueline (Urban Design) was TOS for 2.5 weeks, Manohar (WC representative) present one meeting a week, Sauro (Overall Coordination and Facilitation), and Toby (Township Development).

Punctual attendees: AVC (Daniel, Guy, Matriprasad, Renuka, Sindhuja, and Veronique), Family-oriented community (Greg, Megan and Priscilla), Habitat team (Louis Cohen and Sonali), HS/HB (Ishita, Ole and Sonja), Liberal Arts College team (Abhaya Kumar (Founder), Lalit, Dr. Shyamala (Dean), Sonal Jain (Director of Projects/ Program team) and Soundarajan (Abusha Foundation)), Varuna (Arjun, Carel, and Michael Bonke), WC (Carel, Elisa, Mandakini, Manohar, and Ranjith).

I. TDC-RELATED TOPICS

A/ Site and Building Applications

Approximately 20 site and building applications were studied in August, whether for feedback, discussion, follow-up, etc.

B/ Governing Board (GB) report

The TDC coordinators drafted, re-read, gave feedback and finalized the annual GB report before sending it to the Working Committee (WC). Dr. Doshi also gave feedback.

C/ Volontariat de solidarité internationale (VSI) contract

In September, the TDC studied and signed the contract of a volunteer who is working here with the Regional Planning team.

D/ Job requests

The TDC regularly receives requests (with CV, portfolio, etc.) from all around the world for work in Town Planning, Architecture, Landscaping, Urban Planning and Urban Design. As the TDC is currently undergoing a restructuring, all requests are put on hold for the moment.

E/ IT request

The TDC was requested to supply an organization with computers. The TDC itself has a shortage of computers and thus this request had to be refused.

II. FINANCIAL TOPICS - nothing new this month

III. HOUSING TOPICS

A/ Housing survey

After receiving an email requesting information, the TDC would like to communicate a small reminder to the community: A survey of housing needs and demands has been conducted in 2011-2012. This document is public and can be accessed by all. On request from the Auroville Foundation, a survey of all existing physical assets in Auroville was conducted in 2014-2015. This survey is not final and will be sent to the Auroville Foundation once it is done.

B/ Habitat

The TDC met with the Project holder and architect of the Habitat project to discuss various aspects of its implementation. It was agreed to launch Phase I once all required documents have been sent.

IV. LAND-RELATED TOPICS

A/ Under-utilized lands

The TDC put together a report on under-utilized lands in Auroville and has sent all the documents to the working groups. This report was also posted on the Auronet and this information was published in the N&N.

B/ Land and development-related issues

On September 11th, several representatives of the TDC, WC and AVC met to discuss issues related to private lands, unwanted developments and city-related developments.

Concern was raised regarding private developments on Auroville roads.

Various options regarding roads (traffic diversion, building new roads...) and funding were studied together.

All information and new developments be shared between groups and work in this direction shall continue.

C/ Temporary housing on encroached lands for protection

The Housing Service has dropped off site applications for various areas around the city (International Zone, Greenbelt, Residential Zone...) for temporary housing.

The conditions are: dismantable houses and a signed agreement with the temporary stewards that they are aware of and do not object to developments that will happen in the future. Depending on the location/zone, additional conditions will be determined.

V. ROADS

A/ Solar Kitchen (SK) crossing

The TDC has studied and approves of the proposal for a roundabout at the (very dangerous) crossing in front of the SK. An estimate is being prepared and this proposal will be published for feedback.

B/ Mobility

Mobility is closely connected to planning. A survey has been done; there is currently a study on the table regarding mobility in Sectors 1 and 2 of the Residential Zone, which will be included in the Detailed Development Plan (DDP).

The TDC suggested that the WC and the AVC work on making appeals regarding private cars etc. and the TDC will shortly present a mobility plan based on surveys and an approach oriented on participation and integration. With this plan, it will be possible to plan roads accordingly so as to discourage traffic.

C/ Matrimandir (MM) service facility

Before this facility starts the construction phase, the road will have to be shifted towards Existence or towards the MM (still under discussion) because it will end up just on the existing dirt road.

The TDC is studying these 2 options in detail.

D/ Road repair Greenbelt

The TDC was contacted for road repairs in the Greenbelt. For the moment, it is not possible due to financial reasons (office budget is used for this).

As soon as the situation evolves, and if it hasn't been taken care of by then, the TDC will take this request into consideration.

VI. REGIONAL DEVELOPMENT

A/ Liberal Arts College

Several representatives involved with the planning of the Liberal Arts College came to visit Auroville for a more in-depth interaction and getting an orientation about Auroville activities. In this context, a meeting was held with them on September 4th for a presentation and general overview of activities being carried out.

The team of architect planners explained that the liberal aspect of this college is an important aspect.

There are currently 2 projects which represent interesting development possibilities with regard to regional planning: the Liberal Arts College and the Village Heritage Museum. These development projects will improve dialog and the inclusion of villages.

These 2 projects can be carried out successfully through collaboration and sharing of information.

Land has already been identified for the college project, but some administrative steps need to be taken first, and an access to the NH47 is preferable. Therefore, it will be necessary to work with local owners and administrative services.

A sustainable development of the surroundings is important; this project will integrate the college campus as well as the village.

VII. GROUPS, ZONES, SERVICES - *nothing new this month*

VIII. OTHER TOPICS

A/ Varuna

On September 1st, the TDC met with Michael Bonke as well as Varuna executives to ask for information and clarification regarding the water pipeline for the lake as well as the desalination plant.

Varuna executives handed over the documents related to the water pipeline for the lake and the detailed map of the pipeline path will be sent shortly.

Varuna pointed out that the wind park will grow according to needs and the size of Auroville.

They are studying the feasible and commercially viable set-up of a hydropower storage solution (of which there is only one in Tamil Nadu). The storage project requires elevated grounds; the earth that will be dug out for the lake seems to be a convenient solution.

Furthermore, a runoff water storage (or buffer lake) would then help to maintain the level of the MM Lake throughout the year with a storage space (for rainwater) of 200,000 m³.

There would also be the possibility to filter a part of this runoff water for drinking purposes using the 50-day natural filtering process with different layers (pebbles, soil, etc.) approved in Germany.

The main objective of these proposals is to provide, free of charge, all basic essentials: electricity (already achieved), water, and wastewater treatment, to strive for a money-free economy.

Water wells will become saline over the next few months/years in the Auroville area; a solution must be found to provide drinkable water in the future.

3 solutions regarding water are currently being studied and will be developed: desalination, water storage and runoff water filtering. Once these 3 projects are set up and operational, we will be able to determine which of these 3 options was best adapted to realities and needs in Auroville.

If Auroville does not want to benefit from the desalination plant, the neighboring villages will be the main beneficiaries of this project.

Michael Bonke explained that the hydropower storage and desalination plant are not directly linked with the MM Lake, they may also be stand-alone projects and insisted that the only link is between the 3 studies his team is working on, i.e. desalination, hydropower storage and buffer lake.

He proposed to have a report made on the hydropower storage, recapping all the parameters mentioned above, which the TDC is expecting to receive.

The TDC informed Varuna members that as there are problems at every step regarding water-related topics; it is becoming urgent to obtain a large consensus regarding water (supply, management, storage, etc). The goal would be to do so by November, which represents a post-retreat/Way Forward milestone.

The various water groups are tackling problems and technical issues together and are trying to find agreements for less polarized opinions.

Regarding the MM Lake, the TDC informed Michael Bonke that 2 studies have already been done, and the usual processes (brief, tender, evaluation of proposal) will be followed for an expert

opinion before establishing which solution is best adapted to the situation. There is no insurance that Varuna's projects will constitute the chosen option after expert evaluation that depends on various parameters (cost, electricity, maintenance, environmental impact, etc).

The issue of conflict of interest was raised by several people, especially in relation to the fact that the community perceives the Water Service (WS) as part of Varuna and that there is a contradiction between the charging policy of the WS and the above-mentioned goal of Varuna (free water). Michael Bonke stated that there is no link between Varuna and the Water Service.

It is important to establish which actions are to be undertaken by which group/people and to distinguish the roles between town planning (in which Varuna has no desire whatsoever to participate) and service provider.

Varuna executives informed the TDC that non-Aurovilians have access to information dealt with within the Auroville working groups, and this leakage is hindering the progress of this project with regard to private land owners.

B/ Water-related topics

a) Water system Reve/Courage

The water demand in this area is high but the quality is insufficient. A proposal would be to dig a bore-well and standardize this project to integrate it into the sector 3 of the RZ.

In principle, the TDC accepts this inter-connected local water system, but a financial agreement is needed and then a budget needs to be prepared and evaluated.

b) Bore well village

There was an issue between AVAG and the village regarding the placing and usage of a bore well located by Alankuppam/Annainagar.

c) Nandanam - Kindergarten - Aha!

There is insufficient water around this area; the TDC is studying the situation together with the Water Service.

d) Administrative area water pipe routing

The TDC has received numerous emails regarding the route of the water pipe between the Gaia crossing and the Administrative area. Feedback was studied and answered to as and when possible.

C/ Children/family-oriented community

The TDC was contacted regarding a family-oriented family that approx. 6 families are interested in for the moment.

Goal of this project: create a community for families and family-friendly people composed of (basic) houses, public/open common spaces (such as a play-room), a natural learning space and other developments (e.g. a guest-house for families, a (vegan) restaurant...). The space would be shared by the resident families as well as other Aurovillian/guest families.

It was highlighted that forest/green area is desired. The TDC informed them that for that, the GG needs to accept/endorse this project and suggested that this group be contacted regarding possible under-utilized lands in the Greenbelt that could be allocated to this project.

It was also stressed that proximity to the city center would be much appreciated, to which the TDC replied that there are low-density "green spaces" in Sectors 1 and 2 of the Residential Zone.

D/ Afsanah Guest House (GH)

Upon request of the FAMC, the TDC has done and sent a report regarding the swimming pool in Afsanah GH.

ANNOUNCEMENTS

Entry Service policy

Dear community members,
Following our last GM on the new Entry Policy, we have studied all the feedback received and incorporated as much as we could into the document. The revised document can be found here: <https://www.auroville.org.in/article/53381>

Alternatively, you will receive a mail with a link to this from the RAS.

The Auroville Council would like to try a method of moving forward with policies and mandates in general that does not involve voting but a rather elaborate, open, transparent and sincere 'feedback' process. In that vein, all feedback received has been compiled and the process

explained below each one. This document can also be found in the same link on the Auronet.

For this Entry policy, we would like to invite more feedback on the revisions in the next 2 weeks, which will be followed by a feedback integration process.

This Policy will then be considered the operational policy for 18 months, after which the Auroville Council will review it and revise as necessary.

Please note that if you haven't already spoken up, now is your chance, as there will be no voting!

If you feel called to explore Mentorship, please write to us, we need participation! We intend to organize a few workshop sessions where this can be explored in depth.

We can be reached at: avcoffice@auroville.org.in.

Thank you for your trust and participation!

Sincerely,

For the Auroville Council - *Sindhuja, Matriprasad*

Reminder on the Auroville Entry Visa

Entry visas are given by the Indian Government as a special privilege to live and work in Auroville only. Newcomers and Aurovilians should understand that this visa is not for tourism in India or any other activities outside of Auroville.

Newcomers and Aurovilians may, if needed, leave Auroville up to a maximum of three months per year, but each exit (more than two weeks within India and every exit abroad) must be recorded by the Entry Service for Newcomers, or by the Residents' Service for Aurovilians.

Please note how important this is because if individuals abuse this, it falls on the whole Community and there can be consequences for everyone with possible restrictions and changes that will be unfortunate.

The Entry Service

Reminder on Newcomer/Aurovillian Feedbacks

Please note that Community feedback time on the persons announced in N&N as Newcomers is two weeks. After that, the name is confirmed (or not) and the name announced again in N&N as confirmed. For Aurovillian announcements, the process is the same, except the feedback time is one month. During the feedback periods the Newcomer or "Aurovillian to be" must be living in Auroville. Newcomers need to be in Auroville during their feedback period and available for any clarifications.

FOR YOUR INFORMATION

FRANCE = This year the fourth of the prestigious **Forum de l'Evolution de la Conscience** (Forum of Consciousness Evolution) will take place in Paris on Saturday 10 October. As AVI France is partner to the Forum, Auroville will this year be very much present in the discussions which center around the "Living one's utopia" theme.

Among the eight participating pioneers who will be carrying the full day programme, Auroville will be presented by **Jean-Yves, Uma P and Aviram**, who will share their experiences, challenges and achievements in their fields of activity in light of Auroville's evolutionary and transformative vision. For full details about the Forum, this year's speakers and registration, see: www.evolutionconscience.com. In the morning of the day after, Sunday 11 October, AVI France arranges for a more informal Q&A session with the above mentioned three Aurovilians. Further information can be obtained via: aurovilleinternationalfr@gmail.com

NETHERLANDS = The Dutch September e-newsletter carries well documented information on various Aurovillian topics and issues (such as Acres 4 AV; AV Radio; Savi's web site; the recent AVI meeting in Woodstock; the AV community & NKN network coming up in AV; and more) and indicates that a new Dutch board membership may be in the making. Two promising meetings thus far have been held among dedicated candidates and the expectation is that possibly end October/begin November a new AVI Netherlands board team will start off. The newsletter can be read at: <http://qoo.gl/qib4CV>

YEP

Dear friends,
We are happy to present to you what we have been working on.
YEP, Youth Entertainment Program, aims to facilitate the stay of guest children and their families in Auroville. This name was

chosen because it is upbeat and easy to pronounce in any language.

"YEPWeek", a program for guest kids aged 7 to 12, will be held weekly from Monday to Friday, 8:30 am to 1:30 pm. The kids will be taken from place to place to discover Auroville in an authentic way, through visits and activities facilitated by Aurovilians. They will be involved in community life, play interactive games, and have fun. This will be starting from **Monday the 12th of October**.

YEP is also setting up an accurate, updated & free data about activities available for kids & their families, and a babysitting network.

For more information and registration, please contact us at: yep@auroville.org.in.

To the organizers of any events happening in Auroville

It has been brought to our attention that advertising agencies in Pondicherry are promoting events and activities that are taking place in Auroville encouraging the general public to attend the functions. As a result it is creating a problem for Aurovilians and their guests' access to the programs and safety issue for the organizers.

We strongly recommend if an event or activity is closed or open, that you kindly indicate which in your posters, postings and advertising. A simple message like "open to the general public" or for "Aurovilians, Newcomers and Guests only" as this will help us monitor the social media and media sites.

Thanking you in advance for your understanding and co-operation,

OutreachMedia.

New Building Blocks

Thanks to a grant from Stichting de Zaiier we have been able to upgrade and develop the processing of waste Thermocol (Styrofoam). We can now

supply precast building blocks made with crushed thermocol and cement. They are light weight and have excellent heat insulation. They can be used for light weight internal partitions and externally as wall fillers in a frame structure. Sizes are 60cm x varying thickness. They are cost effective because of labour and cement saving.

Crushed thermocol for roof insulation has also become much cheaper.

Call to All Auroville Activities

Construction sites, Contractors, Carpenters or Individuals in need of wood in small sizes

The Land Board is stocking and selling woods which are in its care. As most of the wood - mainly firewood has been lying

since the cyclone 'Thane' almost 4 years ago we would like to sell more.

There is some Timber Quality (2nd or 3rd grade) wood still available and we make a last call to all Auroville activities, carpenters, units, constructions, contractors or individuals to have a look and select logs you could use for construction or wood work for smaller needs.

This wood is being put for a final sale at a 40% discount to market prices till 31 December 2015.

We would like to pass this value to Auroville rather than have the wood degrade to firewood by constant exposure to the elements of nature.

Do contact us by email: landboard@auroville.org.in OR call 2623699 to fix an appointment with *Sandeep* or *Kannyappan*

POSTINGS

From Tailoring Section: good news

Anne will be back beginning of October and the opening of Nandini will start again as before. **From Tuesday 5 October:** Tuesday, Thursday and Saturday morning 9 to 12.30 am and afternoon: 3 to 5 am. We are really sorry for the drastic reduction of opening during September but to do better was not possible. Thank you very much to all of you for your patience and understanding.

Encyclopedia - Someone to help

Within the last fifteen years I have written and compiled a kind of "encyclopedia" which is now over 1,800 chapters, about ten thousands pages, divided in 12 sections - about human issues, love, suffering, death, relationships, etc. and mostly the spiritual path.

In some chapters I have found some passages from Hinduism, Buddhism, Christianity, even from Islam, etc., saying the same things with very similar or even almost identical words, showing that the original message of all religions and the major Teachers was the same.

There are some questions to the reader to make it a bit interactive, many quotations from Sri Aurobindo and Mère and from other Teachers, poets, scientists and inspired but little known writers, some poetry and anecdotes etc.

I am now seeing with SAIER how to put it in Wiki electronic books with a link to the AV site to make it accessible to all, but to be accepted by Wiki books the format has to be changed.

For this the help of someone who is a bit more expert with the computer than me would be needed. If you have the time, besides earning a lot of good Karma points you will find going through it interesting - everyone who had a look at it did.

THANK YOU

Vikram and Razia

I would like to take this opportunity to thank Vikram Ram and Razia Sultana (Zeus Inc.), two very entrepreneurial individuals who have decided to help Auroville and Aurovilians in what they do best...organize events!

And so they hosted "Auroville is Here" at the Phoenix City Mall, Chennai on September 19-20, 2015. It was a great two-day event, showcasing unique Arts and Crafts of Auroville to the residents of Chennai. Around 12 Aurovilian units were provided their own individual booths to display their crafts and talents. They also provided lodging at the beautiful Design Hotel inside the mall. And all the expenses were borne by Zeus Inc - totally amazing.

It was an extremely well organized event, which included a lot of marketing, great attendance and constant availability by both of them. All the participants were extremely well taken care of and people of Chennai and the surrounding areas had the rare opportunity to interact with Aurovilians and discover the hidden creativity that resides within Auroville.

Thank you, Vikram and Razia, for your kind and generous gesture to all of us.

ACCOMMODATIONS AVAILABLE AND NEEDED

House-sitting.1

Hello Aurovilians! I'm Giacomo, an Italian long-term volunteer working in Dehashakti, Joy Guest House and Outreach Media Office - soon to start the Newcomer process. I would like to find a place to house-sit for a long time, starting from December/January... but I can take in consideration even a short time house-sitting. I used to take care for many months of a guest house, so I think I can take care of your house :). I don't smoke, I'm a reliable, clean and a mellow guy and I can take care of your garden, your vegetable garden and your pets. Please contact me at: giacomoauroville@gmail.com or 9487340778.

House-sitting 2

The Auroville Campus Initiative (ACI) is seeking to expand its team

The Auroville Campus Initiative (ACI) is looking for a self-motivated individual to join its team who is passionate about further education and community development work.

We are offering a stimulating and engaging teamwork environment that is supportive, action-oriented and delivery-focused.

Some of our key projects are the ongoing 'Joy of Learning' events, the creation of apprenticeship programs, the development of an Auroville semester programme, and some coordination of learning activities. All of these works are part of our underlying mission to create an enabling organisation for further learning in Auroville which is a service to our community. If this appeals to you and you have demonstrated organizational, writing and reporting skills, and an interest in operations and logistics, please contact us and let us know more about you.

A maintenance can be provided.

We are looking forward to hearing from you.

AUROVILLE RADIO

Dear Listeners,

The Auroville Radio Team is engaged this week in covering the Film Festival event, panel discussions and interviewing the producers and audience etc. We are happy to report that the Auroville Radio recently attended a meeting with the Pondicherry authorities in the emergency disaster relief management cell, to join in the coordination of disseminating crucial information during such times.

We have requested a short meeting with the GB Chairman regarding the next steps in obtaining our FM license. Other small improvements and changes include a new email id, easy to remember radio@auroville.org.in. Meanwhile we would also like to create a new logo and/or tagline for Auroville Radio, anyone feeling inspired to help us is very welcome. We are expanding the music content in our programs and encourage more people to join us in introducing and creating musical programs and of course journalists, students, volunteers and techie people are always welcome to join our team at the Radio premises in the Town Hall.

These are the latest programs published by AurovilleRadio this week. All the recordings are available in CD or ready to be copied on your memory stick at the AurovilleRadio premises in Town Hall, opposite the Financial Service.

Korean Shushi restaurant "Jolly Kimbap" closed for the event

Dear friends of Jolly,

We are not available to run our restaurant from the 2nd of Oct to the 16th of Oct so as to organize the **Av Singing Festival**. We are sorry for the inconvenience. But you can meet us on

Friday the 2nd and Saturday the 3rd of October during the **Av File Festival** at the town hall. Wish to see you soon,
Your Jolly Kimbap

News from the garden cafe

Dear Friends,

We have now to almost 100% stopped the use of oils containing transfats and chemicals in our restaurant, such as refined sunflower oil. Instead we are using extra virgin olive oil, homemade ghee, butter and cold pressed organic coconut oil. The cost is of course much higher, but we just think one can't put a price on health...and refined oils are not good, causing many diseases.

But in spite of the care we take in selecting the raw materials, e.g. using organic flours, it was found in a survey made between Auroville's different restaurants, comparing prices of same or similar dishes, that our prices are most of the time lower.

More good news, especially for those who want to avoid gluten; we are now making a vegan Green Thai Curry with Tofu. Made with fresh coconut milk, our own green curry paste and served with AV complete rice and green papaya salad.

So welcome and enjoy! And remember, we are open Tuesdays through Sundays, **Mondays we are closed!!!**

Love from the Naturellement *Garden Cafe team*

GREEN MATTERS

Green Column for Saturday 3rd of October 2015

The Climate Conference in Paris - COP 21

The Green Column is back after long summer months. We would like to continue in the next two Green Columns with news of the United Nations Climate Conference in Paris, or "COP 21", which will take place from November 30 through December 11, 2015.

This decisive meeting in Paris will allow representatives of the world's countries to demonstrate their commitment to act responsibly in the face of climate change, and to power the world with clean energy. A new international agreement will be adopted in December following the conference, to be implemented from 2020. It will take the form of a "Protocol",

an agreed outcome with legal force, and will be applicable to all parties.

The Conference of Parties (COP) is a decision-making body made up of representatives of 192 countries and the European Union. This year's conference will be its 21st session.

The crucial objective of this conference is to negotiate and achieve a new international, legally binding agreement on industrial activity, with the aim of limiting global warming to 2 degrees Celsius compared to pre-industrial levels. The overarching goal of the Conference is to reduce greenhouse gases in the atmosphere to 320 parts per million (PPM) - at the

moment this figure is 400 PPM. The current global trend is a 2 PPM increase every year.

In the beginning of our human civilization the atmosphere contained about 275 PPM of carbon dioxide (CO₂). In the 18th century humans began burning coal, gas and oil to produce energy and goods. Today our lives rely on energy sources that emit CO₂ and other greenhouse gases. Paleolithic-era climate evidence and ongoing climate change suggest that the level of CO₂ in the atmosphere must be reduced to 350 PPM to preserve the planetary conditions to which life is adapted (Dr. James Hansen: former head of the Goddard Institute for Space Studies).

So far we have experienced about 1 degree Celsius of warming. Impacts include the melting of glaciers and ice sheets (which releases methane from the permafrost melt and threatens the source of drinking water for millions of people); the spread of malaria and dengue via mosquitoes favoring a warmer climate; weather patterns which threaten agriculture; the rise of sea levels; ocean acidification (endangering coral reefs, fish and other marine life); and extreme weather events such as

hurricanes, typhoons, blizzards and droughts which exacerbate conflicts and security issues in regions already strapped for resources.

Next week we will follow up with the events in Paris and actions around the world leading up to the UN Climate Conference and look at the different measures India and other countries are taking to mitigate Climate Change.

Further rectifications to Francois' video

Regarding Roger not being informed of those four conversations in the Agenda

In the news n. 613, and with more details in the Auronet [<https://www.auroville.org.in/blog/palette/53068>], I rectified erroneous statements in Francois' interview to Piero. More follows.

On January 1st, 1970, Roger was briefed on the Chamber directly by the Mother, who also told Satprem, twice, about her informing Roger. Yet this was not the reason for Roger not receiving the four conversations, 31 December 1969 - 17 January 1970, of which Satprem had given to Nata a copy with the request to forward them to both Roger, and Paolo Tommasi. Dismissing Satprem's request, Nata never forwarded to Roger the conversations, showing them instead to Piero (who wasn't even involved yet). Only in 1974, because of Patrizia Norelli's attempt to blast the Chamber (plus Huta targeting the Matrimandir) Paolo forwarded the conversations to Piero, who passed them to Roger, who had never seen them before. According to Alain Grandcolas, Satprem too at last sent those conversations to Roger; four years later, after Roger received them from Piero.

Several statements in Francois' video do not fit, so I re-read those conversations. The reason for Nata excluding Roger emerges in that of January 17. Nata wished that the Matrimandir was built in conjunction with the Ashram (and so did Paolo), under his own guidance: "*Nata, as an engineer, would look after the construction*" Satprem told the Mother; she refused. Regarding Nata (Paolo too) not trusting the Aurovilians, the Mother replied "Oh no, he doesn't know! It's all in the mentality, all in the mind. They don't know. WHO knows? It's only when one sees. There isn't one who sees. It's all thoughts and thoughts and thoughts - you can't build with thoughts" and she goes on, emphatically. But there is more. "You see, Nata has spent his time speaking ill of Roger as much as he could, saying all his plans are bad and his work couldn't succeed. Roger has spent his time saying "Nata has ruined all my work!", the Mother continues. Everything fits together.

Also, Ruud Lohman was not among those initiating the excavation of the Matrimandir's crater, as it erroneously appears in the video. A visiting Franciscan monk, Ruud reports that he was so moved by those young vellekkara digging that he joined them, and dropped his robe for good.

One further rectification: Alain Grandcolas coordinated the excavation and, of course, the Mother was fully informed! Piero was proposed only after Ramanathan, the engineer in charge (*not Nata, as he had wished*), was unable to further commit himself; Piero is mentioned for the first time in a much revealing conversation in the Agenda, 10 November 1971. In it the Mother concludes her strong remarks on Piero telling Satprem, "He has an idea of how to make the Matrimandir, and others have another idea, but then Roger is going to arrive soon - I would like to wait for Roger to be here, and he will decide", warning Satprem: "I advise you not to get involved in this!" He replies, "Oh, but I don't intend to at all!" Finally the Mother cuts it short, repeating, "Oh, no! That's... Look, tell him that Roger will soon arrive and everything will be decided when he's here."

On January 17, 1970 the Mother spelled out in detail her reasons for not accepting Paolo Tommasi's concept (<https://www.auroville.org.in/blog/palette/53068>). In a second posting in the Auronet (<https://www.auroville.org.in/article/53364>) I have attached excerpts from the same conversation where the Mother refuses the suggestions by Nata too.

CONNECTION AS LIFE ENERGY

Introduction to Nonviolent Communication with L'aura Joy (CNVC Certified Trainer)

Do you long for more joy, authenticity and depth when connecting with yourself and others?

Do you wonder what gets in the way of connecting and relating the way you truly want?

- October 4 (Sunday)
- 9 am-5 pm (with potluck lunch)

More info & register: <http://goo.gl/wHF0mB/> or contact L'aura: joylivinglearning@gmail.com, 9442788016

A path of Nonviolence (based on Nonviolent Communication, NVC) offers both a deeply-rooted consciousness of oneness, as well as very practical tools to live this more and more in our daily lives. In re-evaluating some of our habitual and conditioned thinking, we see how much of it is life-alienating and based on a culture of scarcity and separation. We'll learn the skills to be able express ourselves with more clarity and to hear others' true (and harmless) message, which in turn leads to more connection between us. When we're connected as human beings, we're in our natural state of wanting to give and collaborate with others.

TREATMENT:

In the spiritual line Usui System, Reiki is the universal life energy, and is a healing art that promotes balance throughout our whole being. Often people come to the Reiki table for a particular issue and find that the benefits occur on many levels. Reiki flows through us and helps healing in whatever way is best for us at that point in time. The Reiki treatment lasts for 60 minutes, during which time

the therapist will place their hands gently on or just above the recipient's body (remaining fully clothed). All the patient has to do is relax.

Susana is certified in first and second level Reiki, Usui System, in the spiritual line of Dr. Mikao Usui, Chujiro Hayashi and Hawayo Takata.

We are very happy to welcome our Long-Term Volunteer Christiane Berthet, coming to us through SAVI. All the way from Tahiti, Christiane is here in Auroville to fulfill a dream that started for her in 1974. Christiane will volunteer at the Tomatis Centre, and will teach French at the Language Lab. She is a retired psychologist and educator and has had experience teaching French as a second language. She will be available at the Language Lab every afternoon from 3-6 pm. In addition to offering group classes at the times on the schedule, Christiane will be very happy to take Aurovilians and Newcomers in one-on-one sessions for all levels. Many of you find it difficult to make it for classes at fixed times or several times a week, but still nurse a desire to start learning/improving your French. Well, here's your chance! She's going to be with us for 10 months, so take advantage of her presence. Her aim is to help you speak French! Guest and others will have to make contributions as for private classes, but Aurovilians Newcomers and Volunteers can make their regular monthly contribution to take advantage of the one-on-one sessions. All our old students of French are warmly invited.

We are also very happy to welcome another Volunteer and hopefully Newcomer-to-be, Ulrich, from Cologne in Germany. He is a trained Montessori teacher, and feels this method is a wonderful way to learn foreign languages faster, even for adults. During his training he lived in Vienna and so he would love to share about German and Austrian culture through his classes. He has also had experience teaching German, French, Italian and Latin. With Ulrich, we will offer the 3-month Certification classes in German for A1 and B1 certificates. Erika Eggemann's course early this year went really well with a 100% success rate for the exams at the Goethe Institute/Max Muller Bhavan, so we'll follow the same format. Those who want to take the exam will be supported to; we will follow the books of the certification, but those who simply want to learn German without going in for an exam, are most welcome. Ulrich is also willing to teach the C1 level classes once the A1 and B1 courses are done.

Piero is still around and would be happy to offer Italian classes if there is interest. The classes dropped off over the summer, so would be really happy to start teaching again.

Saravanan continues Tamil classes and Chandrima remains available for Hindi, Sanskrit and Bengali.

Jerry isn't back yet, and for the moment, for English, we are arranging guided study using the mediatheque. We have a lot of materials for teaching English, and welcome volunteer English teachers who can give at least a two-month preferably three-month commitment at the minimum.

All classes are still at the old premises at Shakti, next to the Pyramids (Aspiration-side). Work is continuing non-stop at the new building site in the International Zone, but it doesn't look like we will manage to move end-October as we had planned earlier. Like all buildings, finishing takes time, and there is a money crunch in the finishing stage. We are managing with an enormous amount of hard work by all the team members, and there have been lots of beautiful learning experiences, instances of Mothers' grace, lovely moments with workers, as well as quite a lot of challenges! The building will put Auroville squarely back onto the sustainable building construction map. We welcome contributions to help us finish - PT Account 251414 - ALL New Building Construction. Please have a look at the Architecture page on our website: <http://www.aurovillelanguage.org/architecture.php> for a description of what makes this building special, and if you feel like giving, or spreading the word to anyone who might be in a position to give, please do! People paying taxes in India can get 100% tax-exemption receipts.

We also want to give a very special Thank You to Manu Zimmerl for all his help and support for the Networking Design over these months, and to Coriolan, our very first sysad from 2003, for his advice. Actually once we start thanking people for their help on the building, the list is rather long! You know who you are and you will all be felicitated when we finally have the pleasure of opening the building....

A very big "Thank You" to Satish of 150 DPI for making our website mobile-responsive.

We are still looking for a volunteer filmmaker who could document some of the Tomatis stories and also the new building. Somebody who could edit footage would also be very welcome. If you know of anyone, let us know.

We have received some lovely testimonials from parents of kids who have benefitted from the Tomatis programs. It would be wonderful to receive some testimonials from adults as well. So if you did Tomatis at some point in the last 10 years, please drop us a few lines by email. It will help us in our last fundraising effort to complete the building.

OM Choir

The voice that chants to the creator Fire,

The symbolled OM, the great assenting Word (Savitri p.310)

In 1961 the Mother gave the *adesh* to Narad to bring down a new music. She said that one must go far above words and bring down the pure Music. Mother told us to sit in a circle and have no preconceptions as to what we would sing but to be silent and let the music descend in us. The OM Choir aspires to bring down the New Music for the New World in a collective body. We sing only OM, the creative and effectuating Word, after starting with warming-up and voice exercises given by Narad.

PEDRO ALMODÓVAR Film Festival @ CINECLUB

Ciné-Club - Sunday 11 October, 8:00 pm:

- LA MALA EDUCACION (Bad Education)

Spain, 2004, Dir. Pedro Almodóvar w/Gael Garcia Bernal, Fele Martinez, and others, Drama- Crime-Mystery, 106mins, Spanish w/ English subtitles, Rated: R

In the early 60s, two boys discover love, movies and fear in a Christian school. Father Manolo, the school principal and literature teacher, both witnesses and takes part in these discoveries. The three characters come against one in the late 70s and again in 1980. These meetings are set to change the life and death of some of them. The movie utilizes the typically Almodovarian production schemes, quirky dialogue, ambiguous moral codes and post-feminist politics to create a cinematic space that is more usefully reflexive than his past work.
