April 4th - the 111th anniversary of Sri Aurobindo’s arrival in Pondicherry
Then pealed the calm inexorable voice:
Abolishing hope, cancelling life’s golden truths,
Fatal its accents smote the trembling air.
That lovely world swam thin and frail, most like
Some pearly evanescent farewell gleam
On the faint verge of dusk in moonless eves.
*Prisoner of Nature, many-visioned spirit,
Thought’s creature in the ideal’s realm enjoying
Thy unsubstantial immortality
The subtle marvellous mind of man has feigned,
This is the world from which thy yearnings came.
When it would build eternity from the dust,
Man’s thought paints images illusion round;
Prophesying glories it shall never see,
It labours delicately among its dreams.
Behold this fleeing of light-tasselled shapes,
Aerial raiment of un bodied gods;
A rapture of things that never can be born,
Hope chants to hope a bright immortal choir;
Cloud satisfies cloud, phantom to longing phantom
Leans sweetly, sweetly is clasped or sweetly chased.
This is the stuff from which the ideal is formed:
Its builder is thought, its base the heart’s desire,
But nothing real answers to their call.
The ideal dwells not in heaven, nor on the earth,
A bright delirium of man’s armour of hope
Drunk with the wine of its own fantasy.
It is a brilliant shadow’s dreamy trail.
Thy vision’s error builds the azure skies,
Thy vision’s error drew the rainbow’s arch;
Thy mortal longing made for thee a soul.
This angel in thy body thou callst love,
Who shapes his wings from thy emotion’s hues,
In a ferment of thy body has been born
And with the body that housed it it must die.
It is a passion of thy yearning cells,
It is flesh that calls to flesh to serve its lust;
It is thy mind that seeks an answering mind
And dreams awhile that it has found its mate;
It is thy life that asks a human prop
To uphold its weakness lonely in the world
Or feeds its hunger on another’s life.
A beast of prey that pauses in its prowl,
It crouches under a bush in splendid flower
To seize a heart and body for its food:
This beast thou dreamst immortal and a god.
O human mind, vainly thou torturest
An hour’s delight to stretch through infinity’s
Long void and fill its formless, passionless gulfs,
Persuading the insensible Abyss
To lend eternity to perishing things,
And trickst the fragile movements of thy heart
With thy spirit’s feint of immortality.
All here emerges born from Nothingness;
Encircled it last by the emptiness of Space,
Awhile upheld by an unknowing Force,
Then crumbles back into its parent Nought:
Only the mute Alone can for ever be.
In the Alone there is no room for love.
In vain to clothe love’s perishable mud
Thou hast wove on the Immortals’ borrowed loom.
The ideal’s gorgeous and unfading robe.
The ideal never yet was real made.
Imprisoned in form that glory cannot live;
Into a body shut it breathes no more.
Intangible, remote, for ever pure,
A sovereign of its own brilliant void,
Unwillingly it descends to earthly air
To inhabit a white temple in man’s heart:
In his heart it shines rejected by his life.
 Immutable, bodiless, beautiful, grand and dumb,
Immobile on its shining throne it sits;
Dumb it receives his offering and his prayer.

WORKING GROUP REPORTS

From the Inquiry Task Force:
As you know, the Auroville Council and the Working Committee have created an Inquiry Task Force to investigate the tampering of ballot boxes at the recent selection process for the four Working Groups. We, the Inquiry Task Force, are appealing to any members of the community who have any information in relation to the tampering of ballot boxes. We would like to meet with anyone who can shed any light on to the incident. Especially if those who are responsible for the tampering will to come forward at this time it will be very helpful in clearing up this unfortunate situation. Please, if you know anything about what it was done, or who, get in touch with us by sending an email to judith@auroville.org.in

FEEDBACK PERIOD FOR PEOPLE WHO "OFFER TO SERVE AT POUR TOUS" EXPIRES ON SATURDAY, APRIL 3

We would like to remind you that the feedback process for those who “Offered to serve at Pour Tous” is heading to its end. For your reference, please take a moment to re-read the attached document ‘2020.12.25 qualities sought and process to create new executive team’ - http://bit.ly/38JqDLt. Step 4 includes you, the community, and is the moment when we need your input and support in this important process. Here you are reminded to give your feedback on persons who have offered to serve as part of the executive team. The form has only 7 questions :) http://bit.ly/31A43vB. Last date for submission is the 3rd of April 2021. All feedback will be shared with the person. Thank you for taking the time to give your support to this process for selecting the new Pour Tous Purchasing Service executive team. – Auroville Service Trust & Transition Team

New Approaches to Consolidate & Safeguard the Needed Land for Auroville

From the Land Board, Funds and Assets Management Committee, and Working Committee

It is disheartening that after 53 years of hard work in both village relations and energy invested in regeneration of the natural resources and development of Auroville, individuals are actively undermining this legacy. Auroville is facing an existential crisis today due to speculation, outside developers and land sharks who are taking advantage of Auroville and the work done, and straining the relations with our neighbors. We are observing development by private enterprises which profit on the resources Auroville has worked hard to create and protect, thus compromising the work done. These developments are made without taking in consideration the fact that soil regeneration, water table management and waste management resulting in loss of biodiversity, water level drop and waste dumped in canyons and along the road. Therefore, we need to re-consider different strategies and new approaches to help in speeding up and securing lands for Auroville’s physical manifestation and to further comprehensive development.

We invite the community to explore, refine and approve new approaches. Below are some ideas that were shared in the joint FAMC-WC-LB meeting which will require further study:

1. Allow and assist Aurovillians, Ashramites and well-wishers who share our ideals to purchase land in the Green Belt in the name of the Auroville Foundation. An environmentally friendly land purchase plan can be adopted and maintained line with Auroville principles. The sets of criteria (acceptable to all) need to be introduced and followed by the stakeholders.

Advantages; By relaxing internal controls and permissions to Auroville-friendly persons while also guiding the development, we could consolidate and protect much of the green belt that is rapidly disappearing outside development. By adopting such new strategies in one generation we could increase, enhance and protect more of our land and assets holdings.

2. In addition, the Land Board can make a big push and hire professionals to assist in speeding up purchases. In order to succeed in this, a sum of money for purchase should be on hand (approx. 55 crores). To achieve this, one possibility could be to pool money together for a loan to purchase the needed land. The money could be reimbursed (as needed) over time through the funds raised for land. In this manner persons that wish to see AV land secured in their lifetime but cannot donate the funds, may be able to loan the money now to assist in achieving this goal sooner. (technical details must be studied).

3. To outline and develop partnerships with landowners for co-creating the development in line with Auroville’s plan. The development criteria should accommodate the environment and the economy in a sustainable manner for all.

We would like the groups and residents to consider, suggest and refine such proposals. Speculation and unrelated development threatens our entire project every single day. We look forward to hearing your feedback, suggestions and other proposals. Please contact Landboard@auroville.org.in so that we can follow up and act.

From Forest Group & YC - 27th March GM Follow-Up

The Forest Group and the Youth Centre would like to thank the community and those who came to GM for their attendance and cooperation for following Covid 19 protocols. As was mentioned in the meeting, this meeting represented a first step towards a community-wide discussion and decision. We hope that TDC will publicly share their viewpoint so that the whole community can be informed about this issue from all perspectives.

Unfortunately, due to time constraints, we were not able to have a Q and A session at the end of the meeting. In order to remedy this, on Saturday 3rd of April, all the presenters and organizers of the GM at the Youth Centre from 3 - 6 PM to interact with interested community members who would like to further understand the presentations and see the ground realities first hand. Also, please visit the GM+website: https://www.ras-auroville.org/general-meetings/ht-line-through-bliss-area-and-the-youth-center/ to watch the video recording of the GM, access all presentations of the GM as pdfs, watch various interviews with different town planners and architects of our community on this topic and share your views or questions in the comments section.

We are looking forward to continuing a collaborative process!
- Thank you, The Forest Group and the Youth Centre

- ~ ~ ~

Some topics which need a more detailed response:

- Compliance with existing operating procedures:

The GM followed current guidelines as much as possible. An earlier meeting was postponed on very short notice. The meeting on Saturday had approximately filled 50% of the normal capacity
and there were two venues on the outside which is in line with the SOPs in place at the moment.

- General organisation of the GM:
  The meeting was organized by the Forest Group and the Youth Centre and not directly by the RAS as the RAS presently is not organizing GMs until the happenings during the selection process have been cleared and the RAS has come to a resolution on how to function in this regard in the future. This is something beyond the control of the Forest Group and Youth Centre.

Because it was felt that the GM deals with an important topic concerning the entire community of Auroville and that there is no clarity on when the normal process of the RAS preparing GMs will resume, we decided to organize the meeting being in constant exchange with the RAS, the community at large and other groups. Furthermore, General and Information meetings can be called by working groups and individual Aurovilians without the need to involve the RAS.

- The GM being one-sided / not allowing for a Q&A session:
  As was expressed several times before and during the meeting (or presentation if one would like to call it that), this event is meant clearly as a first step to bring the various perspectives (again) on the same table and work collaboratively together.

  The Forest Group had since long planned to present itself to the community to inform about its composition, its work and also its stand on the particular issue of the HT ring through Bliss / Youth Centre. So did the Youth Centre. The one-sided collapse of the agreed-on process (please see the notes of the meeting at the Youth Centre on November 2nd 2020 published earlier) made the need to present itself and the backgrounds more pressing and the two groups tried their best to compress a complicated topic and their perspective as much as possible.

We all hope very much that the ATDC, individuals and groups who preferred so far to stay more in the background, will create their space to present their view of how to plan Auroville, the aspect of collaboration and Human Unity and with that allow for an open and constructive exchange. The Forest Group and the Youth Centre cannot do this job for them.

Some of us recently attended a presentation by the ATDC in which collaboration and the need to involve every voice was emphasized and we are hopeful that this can be seriously practiced. This is all that the various presentations of the GM on Saturday wanted to aim at.

- The meeting too much focused on a single topic:
  Views expressed that the meeting only focused on a singular topic without considering the larger context and dimension of Auroville. We would like to respond that out intention was clearly aimed at bringing the larger perspective while looking at one important topic which could open the opportunity to bring all of Auroville to function in this regard in the future. This is something beyond the control of the Forest Group and Youth Centre.

However the position of Matrimandir was located by 1971 in the center of the planned township which also gave indications of the four zones of the master plan. All buildings in the planned city area was of a temporary nature to allow for permanent structures to be manifested when plans would be ready. This planning and approval of Master plan of Auroville was approved by RA in 2001 and gazetted by government of India in 2010.

It was presented that now it is for the forest/Green group to allot land for the city. When and how did this role change happen? When and Who sanctioned this? No answers are presented to these questions. No time was provided for any discussion. The general process is green group recommends the stewards.

The ATDC is given the role of planning in the City Master plan area approved by the RA. Buildings with temporary building permissions were made to situate on already designate infrastructure and crown ways in order to create road blocks to planned development. The buildings themselves are of very poor design and quality and time has come to rebuild properly as per the plan. Youth groups will be provided locations to choose for the Youth Center provided the visions and the purposes are clearly stated and defined.

Forest Group presentation:

1. It was said that the Green Group “allocates” land to the Forest Group and the Farm Group. This allocation is only in true context when the area is green belt and the green buffer zone of the city master plan. The l’avenir d’Auroville team is to be providing the planning parameters for green parks in the city area for proper entries and exits and walkways in context of the movement and flow of people.

2. It was presented that the Forest Group manages 739 acres of green belt land, 421 acres of “outside master plan” lands and 300 acres of “inner city” lands. This gives a total of 1,460 acres. The 300 acres of “inner city” lands represent about 25% of the planned city lands. These city lands have to be primarily in the planning under ATDC. The stewardship criteria will be developed by ATDC in consultation with various stake holders and suggested to FAMC to choose those who apply and fit the criteria.

3. It was said that the Forest Group finances itself. In reality BCC provides budgets to various groups such as forest and farm groups.

- Can the Forest Group publish finances for the last five financial years?

News & Notes #862 – 3rd April 2021
- How are the Forest Group finances reflected in the consolidated accounts, balance sheet and annual report of Auroville Foundation?
- What was the net financial benefit that Auroville Foundation got from the management of 1,460 acres of land by the Forest Group during the last 5 years?

4. It was said that forests have been “handed over harmoniously” for city development (examples were given) after negotiations. But how did city lands get “handed over” to the Forest Group to begin with? How can there be “negotiations” and a conditional “hanging over” of Auroville Foundation’s own land when the use of that land is already specified in the notified Auroville Master Plan and to be done by ATDC?

5. It was said that there is no “community agreed-upon concept” for the city. The city concept and the Galaxy master plan were key points that the Mother herself guided Roger to work with. The fact of the matter is that there is an approved and notified Auroville Master Plan that includes “Development Code / Regulations” in part three (page 85 onwards).

6. The comparison with the national highway is misleading. The Crown is not a highway and is meant to have slow moving e-mobility. In 1965 Roger wrote a detailed note to the Mother with proposed guidelines for Auroville township. On cars he wrote:

“The rule of cars has conditioned town planning during the 20th Century and keeps tyrannising it. Though outdated, and everybody knowing it, cars are doing their best to create an inferno within cities and killing people outside it. Therefore, one has to opt for prohibiting it […] and replacing it by some other means more hygienic, taking less space, less noisy, more aesthetic, possibly newer - if possible.

The Mother writes in the margin of the note: “Small size electrically powered vehicles, capable of transporting about 200 Kg at a speed of 15 km/h”.

Clearly, the Mother and Roger were way ahead of their times.

Environmental Impact Study (EIS) presentation:

1. The brief given / assumed for the study itself is wrong. The project is not about a cable with a 3m wide clearance, but about the Crown way. As the word “environmental” suggests, an environmental impact study needs to look at the impact of a development on the wider environment such as the master plan as a whole in context of the bio-region, not on a narrow strip of land consisting of the specific RoW, of about 0.0063 km2 (assuming a RoW width of 18m).

2. The issue at hand is that trees have been planted right on top of the area known as the Crown. Assuming a Crown RoW width of 18m and a Crown segment length of 350m, the area under review represents about 0.031% of the Auroville Master Plan area and 0.13% of the city area. The total Crown RoW area is 0.39% of the master plan land area. The removal of these trees must be seen in the wider environmental context of Auroville and the region. The EIS says that 153 trees need to be cut for a 3m wide RoW. Assuming that for a maximum 18m width, the total number of trees is 900, this intervention needs to be put in the context of the total number of trees planted elsewhere, the CO² sequestration impact that needs to be compensated for (or has already been compensated for) and other parameters.

3. Replacing the planned circular Crown with the routing of the existing temporary road that includes a sharp 90 degrees bend and that is 30% more resources in helping it to manifest. When some in Auroville suggested that the Youth Centre may be built in Hermitage (an area outside the Auroville Master Plan) it was the team working with Roger (the Chief Architect) that proposed a location inside the city area. That location faced resistance from certain future neighbors of the Youth Centre and without further consultations with the Chief Architect the location was shifted to the present location where one (temporary) building has been constructed right on top of the Crown and which has now resulted in a territorial attitude that is not much different from the one that caused the project to be treated as it was.

4. The solution to this problem is not the relocation of the Crown but finding a permanent location for the Youth Centre, if indeed a Youth Centre is present and needed. Many studies show that segregation of younger and older generations does not contribute to well-being and in fact can lead to social isolation. This raises the question as to why Auroville needs a separate “Youth Centre” that is physically isolated from other parts of the township. There can be, and there are, several multipurpose venues in Auroville (many of them under-utilized) where events can be organized and it would contribute to a healthy socio-economic life if the youth of Auroville do not live isolated from the rest of the township.

Galaxy presentation:

1. The Auroville Master Plan provided for the preparation of 5-year detailed development plans (DDPs). The Governing Board had noted over the years in several of its meetings that DDPs need to be prepared with a sense of urgency. In spite of repeated request form L’avenir, only around rupees seventy thousand and five mainstains are made available. The city of dawn deserves much more resources in helping it to manifest.

2. Instead of preparing DDPs a “system” of “building permissions” was introduced where in the absence of DDPs ad-hoc decisions need to be taken. It is time a township with (detailed) urban plans, urban design drawings and a comprehensive infrastructure back bone be created at the earliest.

3. The following data must be kept in mind while discussing the Auroville Master Plan and related main RoWs:
   - Land area of the main RoWs (Crow, 12 radials, International Zone loop road, outer ring): 1.72% of the total master plan land area;
   - Land area of the Crown RoW: 0.39% of the total master plan area; 1.56% of the city area (RoW width of 18m assumed);
   - Total adult population of Auroville (census January 2021): 3,734. Persons actively involved in township physical infrastructure development work: 15 (0.40%);
   - Capital expenditure on township infrastructure in FY 2019-2020 is about 1.96% of total Auroville Foundation Expenditure and 5.71% of the Auroville Foundation expenditure exclusive of
expenditure incurred by income generating units (“Furtherance Activities”).
- Total Auroville Master Plan land area: 20 KM2; Planned city area: 5 KM2, planned green belt area: 15 KM2. Planned built-up area of the city: less than 50%; planned built-up area of the green belt: less than 5%. Ratio of total built-up area to total master plan area: 16%. With an effective green belt of 7.5 KM2 this ratio becomes: 26%.

Map presentation:
1. The existing telephone and optical fibre cables and all existing and future water pipes also need to shift to the Crown RoW where also the other future infrastructure services will be installed. This can be done at low cost, since unlike HT cables, the cost of trenching is significantly higher than the cable cost in the case of optical fibre and sub-distribution telephone cables.
2. A circular road does not cause acceleration as is the case with centrifugal forces. In the case of Auroville the Mother wanted slow moving e-vehicles. Collective mobility options along with e-bicycle and pedestrian pathways are the move going forward.
3. Deviations from the Crown of the past, do not justify similar deviations in the future.

Charter presentation
1. The Mother has never said that there must be “unity” before the city can be built. She wanted the city to be built within a time line. The growth of unity and brotherhood is an ongoing work in all aspects of Auroville life. If the city cannot be built before there is “unity” amongst the present Auroville residents, the same should apply to all development, including forests. The Unity Pavilion in which these statements were made should not have been built either and the same applies to the houses in which the persons making these statements live.
2. Arguments such as the “city is being built at the cost of spirituality” does not stand ground with the raison d’ être of Auroville and the vision of Sri Aurobindo and the Mother. This is the yoga of works, done together to serve the Truth.

The way forward
1. All use of lands in the city and greenbelt areas has to be in accordance with the notified Auroville Master Plan. Land use implementation to be coordinated by the Auroville Town Development Council. In the case of external factors and ground realities that do not allow land usage as planned (in the immediate future), the TDC shall take appropriate (interim) planning proposals. All land stewardships to be reviewed within the city master plan by L’avenir.
2. Preparation of Detailed Development Plans (DDPs) for each zone to be completed by February 2022 latest. All development to be in compliance with these DDPs going forward.
3. All Auroville residents to be encouraged to participate in town planning and development. Please see also Appendix V of the Auroville Master Plan. Youth of Auroville to also come forward and work with the larger goal of development. Everyone is invited to work, not by themselves in own silos. The past shows that this has not worked and has always led to entitlement and sense of ownership leading to problems of collective township development.
4. All unused green belt areas of Auroville to be opened to other stewardship for any green projects.
5. The Youth Center team to work with the TDC team on a project proposal for a permanent Youth Center in the cultural zone while the youth are encouraged to reside in the residential areas of Auroville along with other age groups (from segregation to integration).
6. Some of the outlying lands to be sold or exchanged to consolidate city lands.
7. All main rights-of-way (Crown, 12 radials, International Zone loop, outer ring), including those in which underground infrastructure services have already been installed, to be cleared for the full design width (this is about 1.72% of the total master plan area).
8. A topographic survey shall be conducted at the earliest for the Youth Centre and Bliss area.

From the Auroville Council re: MM Design Evaluation Panel
In December last year, we had started a process to create a team that could evaluate proposed designs, in various fields, and give an authoritative assessment to raise and widen the level of design expertise in Matrimandir. After receiving nominations from interested candidates, we may now continue together with the task of creating the Design Evaluation Panel (DEP) for Matrimandir.

The Aurovilians who have stepped up for this process come with authenticity, peculiar to them. They have volunteered in several projects around Auroville with the goodwill to serve. We see in all of the candidates’ qualities that have contributed in a distinctive way to improving the areas of their expertise. Click here to visit the Design Evaluation Panel process in detail. https://www.ras-auroville.org/design-evaluation-panel-for-matrimandir/

Housing Board Report - January & February 2021
8 HB Members were present during this period: Anbu (L’avenir d’Auroville on TDC related topics only), Prabhu (Community at large), Rama Narayana (Entry Bd), Riju (AVC), Savithri (HS), Venkatesh (Housing Service), Vivek (Community at Large), Xavier (Community at large). A quorum is fixed at 5 members

Meetings:
In person every Wednesday at the Town Hall Meeting Room /or virtual via Google Meet. The meeting on 03/02/21 was cancelled due to a lack of quorum.

Visits with the Housing Board:
- Alexey attends every week to discuss Housing repairs & maintenance
- Sunship Team 13/01/21
- Ole for Housing Service 10/02/21
- Sundar for Housing Service 20/01/21
- Riju attended the meeting on 20/01/21 to resign her position. The Board thanked her for her valuable contributions during her time served with them.

Sacred Groves: An agreement to repay the funds due to Housing Service was made. Of 71 lakh owed, 53 lakh will be repaid from the transfer of the 3 prototype houses. The remaining 18 lakh will be repaid in due course.

Project Holder MOU: FAMC agreed that changes could be made to the MOU template, where certain elements may not be relevant.

Overstaying in Mukti Complex: Housing Service was asked to devise a system to ensure that people did not overstay their agreements in Mukti Complex.

Aurovelo electricity line: It was agreed to pay for a new electricity line to the Housing Service asset in Aurovelo.

Telephone Landlines under custody of Housing: There are several telephone landlines being paid for by Housing Service, in assets that are currently empty or under a house sitting agreement. It was decided to continue to pay the monthly RT which amounts to 300 rs per month in total, because the cost is relatively low and it can be difficult to get new numbers at a later date.

Felix’s house, Victory: A visit was made to verify the living situation there. A housekeeper was keeping the house in Felix’s absence during the day only. A house sitter was also put in place.

Sunship: A meeting was held between the Housing Board and the Sunship team. It was agreed that for future transfers Sunship would have their apartments go through the full community transfer process, and as normal the final decision would lie with the community to choose the new steward. The Housing Board agreed that they could advance an outstanding amount to Kartik who had been awaiting a decision for some time. The advance would be recouped through the transfer.

Miminali, Matrieye II: It was agreed that Housing Service could sign her Newcomer papers as she is ready to contribute to a housing asset in Sacred Groves.

Celebration Caretaker A new caretaker for Celebration was sought and chosen by Housing Service. Rajesh was given a 3 month trial period.

Kalpana Email Draft: The Housing Board sent apologies to Kalpana, who received a copy of a draft email sent by mistake.
Michael, Pakka Box: Michael requested an extension of his Unit’s stay at Kriya. The original agreement was for 6 mo., but an extension was needed due to the pandemic. This was agreed until 31/03/21. 2 Further requests, to plug into the electricity at Kriya and to move a keet capsule, were not agreed due to the temporary nature of the occupancy.

Continuity of the Housing Board FAMC agreed that Xavier could extend his term as Community representative, until the new mandate is implemented.

Venkatesh Allowance: An allowance of Rs 1000/mo was agreed for Venkatesh, who is carrying out site visits for valuations, transfers & house sittings. Approved until the new electric bikes are purchased.

EB group on Housing: Sundar & Venkatesh will constitute Housing Board & Housing Service’s subgroup, for the Entry Board’s initiative regarding new housing.

Maggie’s House, Sanjana: It was agreed that this asset should go for house sitting.

Annexure for agreements needing stewardship papers: In order to prevent delays when creating new house-sitting & staff quarter agreements, it was decided that an annexure would be drafted. This would give 3 months for any outstanding paperwork to be collected needed to accompany the stewardship agreement.

Bridghin House -Jayasutha: It was agreed that Jayasutha can be given a bridging house.

Valuation expenses: It was agreed that Housing would bear the cost of any valuation papers needed for stewardship papers made at their own request. To keep the costs to housing as low as possible, a new volunteer team for house measurement has been created.

Niva It was agreed to give Niva emergency housing due to her housing difficulties, however she was in need of a furnished house which Housing Service cannot provide.

Helen, Certitude Stewardship papers were given for the whole house after it was confirmed that the house no longer operates as a guest house.

Serenity It was agreed to put the house previously occupied by Mousumi for a house sitting.

Antonello, Quiet It was agreed to draw up the stewardship papers for Antonello’s house & that any NOC can be given retrospectively by TDC. The stewardship papers were made based on the old measurements.

Celebration Washing Machine It was agreed to buy a new washing machine for Celebration as the old one has had several expensive repairs already.

Andres, Inspiration Repainting work costing around 12,000 rs were needed, inside & outside of Andres’s apartment. Agreed because Housing Service receives the community contribution.

Ivana, Vikas: Several small repairs were needed before Ivana could move into her recently transferred asset. Agreed.

Djaima Community: It has been agreed previously that 50% of community repair costs are to be borne by housing, due to the number of Housing Service assets in the community. The repair section can communicate to the community that the Housing Service should be part of any decision-making regarding repairs.

Michael, Madhuca: A loan of Rs. 184,063 was recommended to the Loan Group.

Krishna, SoFio: A loan of Rs. 500,000 was recommended to the Loan Group.

Kalou, Miracle: A loan of Rs. 9200 for a door repair was agreed.

Rajeshwari, Prayatna: A loan of Rs. 8150 for a roof repair was agreed.

Anadi, Felicity Anadi requested a repair grant for extensive roof repairs. Grants are on hold but it was also assessed that his unit was in a position to loan the necessary funds.

Housing Development Team: It was decided that a new Housing Development Team would be set up, using the existing resources in Housing and other relevant working groups. The aim would be to have a coordinated approach to solving Auroville’s housing crisis.

News & Notes #862 – 3rd April 2021
OBITUARY

Menaig

In the late evening of 26 March, long-time Aurovillian Menaig Renouf passed away at PIMS’ ICU due to multiple organ failure leading to cardiac shock. She was 73. Menaig suffered from TTP, a rare hereditary auto-immune blood disorder and used to say she “lived on borrowed time” since her mother died of the same condition at a much earlier age.

Throughout her many years in Auroville, she would have strokes and hospital treatments because of this but, being a lively, courageous and spritely personality, she always bounced back. This time she knew that she wouldn’t since she “was really tired” as mentioned to her friends during her birthday in February this year.

Menaig - a Canadian, born in France - first came with her little son Gandalf to Pondy in 1979 and joined Auroville in 1980. For a while she moved in with Judith in Kottakarai and pretty soon built a house with Hero where now Celebration is. At the time her artistic qualities started expressing in beautiful batiks on cloth and canvas. In 1984, during an Auroville summer holiday school trip in Yercaud, young Gandalf stumbled during a climb in the mountains, fell from a height and died. All of Auroville was stunned and mourned with Menaig this terrible, sudden loss.

Not long after that, the couple moved to Centre Field. A new life started and work at Matrimandir intensified. Throughout the eigthties she worked on the structure and in the workshop, wherever needed, overseeing the meticulous and delicate work of painting of the twelve columns, the cleaning and placement of marble in the Chamber etc. Her joy, humor, total commitment and passion for the work was a true strength for the team and will never be forgotten.

In the nineties, Menaig started working with Auroform in Pondy, using her skills in providing artistic touches to the company’s interior designs through wall paintings, curtains, bed covers - all works of art. At the same time, living alone, she made and gifted paintings to her friends, took full part in community meetings and events, and managed a little guesthouse on the side of her house. In these last years, Menaig’s health started slowly, gradually deteriorating, leaving her at times confused and at a loss.

Having arrived with a difficult karma, she lived through it with a free spirit, chutzpah and a colorful outlook, leaving good and loving memories behind. Go paint the heavens, dear Menaig! And thank you for having been with us...

TIME TO SUMMERNATE
Ayurveda healthy tips
According to Ayurveda, the qualities of summer are hot, sharp, and penetrating. That’s why our pitta dosha - the subtle fire that controls metabolism and transformation - can cause us to overheat. The sun saps the energy from the body, from the plants and the earth, increasing the heat and dryness. Pitta needs to be looked after to maintain a good energy, mental clarity, joyfulness, good digestion and blood circulation, a beautiful glow of the skin and a sound sleep.

When Pitta is out of balance it will give skin problems, hot flashes, exhaustion, indigestion or loose stool. Emotionally, excess Pitta manifests through irritation, short-temper, impatience, judgement/criticism, perfectionism...Before Pitta reaches uncontrollable heights, remain cool, calm and pamper the Liver.

With the food: As Agni (digestive fire) weakens, it is better to eat light, unctuous (slightly oily), cooling food such as salads and juices. Favorable taste: Bitter taste, Sweet taste (to take before play games, chat with friends or meet new people of all ages, please do come on by and join in - it’s fun!

NEWS & NOTES #862 – 3rd April 2021

9
Routine to favour:
- Avoid direct sun contact specially between 11 AM & 4 PM, and protect from the heat by keeping a humid towel/cap on the head.
- A nap of half an hour after lunch is allowed (under a neem tree as it is refreshing).
- Body massage with coconut oil - if there’s no time every day to apply oil on the body, then massage ears, hands and feet + pour 4-5 drops of coconut oil on the fontanelle.
- Bath with cool water and apply a paste of sandalwood on the face, heart and lower abdomen (these are the 3 main parts that should remain fresh to maintain the coolness in the whole body); foot bath in the evening with vetiver roots, rose water or hibiscus flowers.
- Swimming, Aquagym, any water activities. Qi-Gong, Tai Chi, light running: max 30 minutes early morning or late evening; walks in green environment, forest.
- Soft yoga, pranayama (Sheetal, Sheetakari, Ida nadi inhalation –lofti inhalation), meditation with Gayatri mantra.
- Walk under the moonlight, full moon bath.
- Wear loose and comfortable cotton or linen clothes (white, blue, green, gray colours).
- Cooking jewellery: sandalwood beads, jade, pearl, amethyst crystals, moonstone, silver, aquamarine.
- To refresh the ambiance use lemon or orange peel, jasmine flowers, lavender, wet cloth hanging at the open window, vetiver curtains.

Cooling plants for the summer:
- Amalaki - Amla: refrigerant and full of Vitamin C, rejuvenative fruit.
- Aloe vera: rejuvenates blood and tissues.
- Aegle Marmelos - Bael fruit: make juice from the pulp and decoction with leaves, it calms body and mind. It is slightly laxative, do not take during pregnancy.
- Coriander: seeds for urinary infections, kidney weakness.
- Red Hibiscus: leaves and flowers for shampoo and conditioner; flowers for herbal tea.
- Manduka pani - Centella asiatica leaves: rejuvenative and tonic for brain and nerves.
- Pavuna - Mint leaves: herbal tea or dishes.
- Radha consciousness - Clitoria Ternatea flowers: herbal tea or juice.
- Sarsaparilla - Nannari syrup: soothing Pitta.
- Shataavari - Asparagus racemosus: cooling, calming Pitta, very good for women to harmonize hormones.
- Vetiver roots: for bathing.
- Yashtimadhu - Licorice: to refresh the body and to calm irritation, inflammation or ulcer in the digestive tract.

Wishing you a beautiful summer.

Berengere (Be) @ Santé Clinic.

About the Benefits of Gold
Gold has been used in many ancient civilizations as an aid to spiritual growth and not only for adornment. Temples, sacred items and ornaments were made with gold, attracting cosmic energy and lifting the place and the wearer into a higher vibration.

For example, the golden crown of an emperor was a very powerful amplifier for his crown chakra to raise his own vibrations and to connect him to the higher forces. Wearing gold seems to increase the vibration of our bodies, which is very beneficial for our health.

The glass around the gold and symbol added seems to increase its natural vibration even more.

Matrigold not only offers these high vibrating gold-in-glass tiles as any kind of jewelry to wear directly on your body, we also produce very solid pieces to add to your water containers. We will be offering them to Aurovilians at a substantial discount during the month of April. Even if you think that you can’t afford it, please come and let us know. We also have pieces which we give against a donation of your choice, because we want everyone to benefit from it. You are welcome to pass by Mon to Sat between 9 and 5. But as we also have outside work, please call 2622458 before coming to our workshop in Sanjana to make sure that we are really there.

Pioneers

Once an Aurovilian asked the Mother: “Maybe we will use Esperanto in our city?” The Mother answered: “No, in Auroville will be its own language.” We can see now that in the city the old words are changing meaning. For example, the famous American poet Walt Whitman (1819 - 1892) wrote: “Have you your pistols? Have you sharp-edged axes? Pioneers! O pioneers!” In Auroville the pioneers didn’t pistols and sharp-edged axes. In “Two Banyans”, American Colline & French Jean have grown forest for more than 40 years. Jean told me that his father was a carpenter of high qualification. If he saw a tree, he could immediately say what kind of things it was possible to make from it. But Colline and Jean grew trees for another purpose - for life! During one darshan (in the Sri Aurobindo Ashram) Jean met the Mother. She looked at him and laughed. Jean told me that he didn’t like it if somebody laughed at him, but in this case, he understood that The Mother looked through him and saw the forest which he together with Colline would grow in Auroville.

Auroville has published a lot of different magazines over the years. One of them is: “The Journal of Bharat Nivas. The Pavillion of India.” (no date). There are two photos on p. 12 and 13: semidesert landscape with strong erosion (Auroville in 1968) and the contemporary city - green ocean of trees. The pioneers like Colline and Jean created this wonderful ocean.

In the first years of Auroville Jean tried to practice the biodynamic agriculture, but he hadn’t any success. E.g. his tomato plants were dying because the winds were strong and hot. They needed a windbreaker - the trees. Sometimes in these first years of the city, there were sandstorms like in the Sahara desert. After strong rains the ocean was brown near the shores - the rain water took with it the topsoil.

From 1991 I lived in Aspiration. Once a big cobra appeared in my room. The first Aurovilians met snakes very often and received a good experience to have safe contacts with them. In 1973 the Mother reached her Mahasamadhi. It was a difficult time for Auroville afterwards. The schools in the city were closed. What to do for the children? But they were not ordinary children, their parents were the pioneers of the city! They hadn’t the pistols but had creativity. Some of them organised a special business - they caught the poisonous snakes and sold them in Chennai (Madras in their time).

I think about Auroville’s pioneers, before my inner vision appears the sun of spirituality, heroism, creativity, great work. - submitted by Boris

**Aurofilm/AV Film Institute Present:**

“CINE-MASTER CLASS”
Saturday 3 April, - 5 - 7:30 PM
At Aurofilm, Kalabhumari (next to CRIPA)

If you like to discuss, share and learn more about films and Cinema, we invite you to our Cine-Master classes!

Welcome to the 10th chapter led by Jean-Luc B. on: “LA NUIT AMERICAINE” (DAY FOR NIGHT) by François Truffaut

Overview: Second part of a study on the French New Wave and after Le Mépris by J.L. Godard (1963), this master class is about the 13th film by film critic-director François Truffaut. Set in Nice’s Victorine Studios, where an international all-star movie called “Please Meet Pamela” is being shot, Day for Night (1973) is a touching, funny and accurate account of the travails (accidents, disputes, affairs, intrigues, death) involved in the making of a film...

Day for Night is emblematic of Truffaut’s love for cinema: it is a film about cinema and a film of cinema. How does François Truffaut see his profession? How does he understand it? Neither technical documentary nor maniacal ode to the glory of a director, Day for Night kills two birds with one stone: personal thinking about an art while digging into the themes of this "personal": women, a favorite Truffalitan subject, a couple and their marivaudages, the wanderings of the heart and the mind, and their construction in the image... Truffaut’s cinema therefore unfolds between a more or less falsified reality, the organized nature of creation, and it questions the truth in cinema.

Duration: 1h.57 - Original French version w/ English subtitles

We follow the Covid-19 SOP. For your information, the Aurofilm building is half open-air. Please carry your torch light.

**BHOOMI**
9th and 10th of April, 7 PM

We open our Remembering Veenapani Festival 2021 by showcasing our own play ‘Bhoomi’, adapted and directed by Vinay Kumar from Sara Joseph’s festival curation, one play will be showcased each month.

Bhoomi sees an attempted conversation between polar worlds or rather very different positions. The play sees two artists, a director and her actor, located very differently in their personal journeys, engaging with questions around gender, violence on gendered bodies, retribution and resolution. Their dissonances-resonances with each other and independent trajectories is what the play looks at. What happens when the creative premise you are working on breaks out of the realm of art and play and stares you in the face as your reality. What do you do when your art starts speaking back to you, taking on a life of its own and stumpimg you with questions you are not equipped to respond to? When a resolution seems impossible - even as the situation seems to be demanding it with a sense of urgency? How do you really respond to a severe absence of answers? This play contains content that can be upsetting or triggering. Viewers discretion is advised. Entry on registration only. Limited seating. To register please call 8861089822 or 9941859258

News & Notes #862 – 3rd April 2021
JOURNEY TO THE LIFE DIVINE - Part 1 - Monday, 5th April, 4 PM

This film created by the Sri Aurobindo Ashram, Pondicherry traces the spiritual development of Sri Aurobindo and the Mother and talks of the work they accomplished to prepare the new evolutionary step towards the Life Divine for the whole of mankind and planet Earth. They were conscious of their mission already in childhood. The film discusses Sri Aurobindo’s early spiritual experiences, his involvement in politics and the time he spent in jail, as well as his distinct adesh ordering him to go to Chandannagar and then to Pondicherry. It traces the Mother’s unique spiritual development, her knowledge of occultism and her training in Tienmen, Algeria, her life in Japan, and her meeting with Sri Aurobindo in Pondicherry.

A special emphasis is put on Sri Aurobindo’s arrival in Pondicherry on 4 April 1910, the Mother’s first arrival there in 1914, and her final arrival on 29 March 2020. Sri Aurobindo said about his sadhana in 1915-1920, “Heaven we have possessed but not the Earth. But the fullness of the yoga is to make, in the formula of the Veda, Heaven and Earth equal and one. Sadhana and work are waiting for the Mother’s coming”. The meeting of Sri Aurobindo and Mother, then known as Mirra Alfassa, was of crucial importance for the progress of the Divine Work and signalled a radical change in the future of the earth and its evolution.

As Sri Aurobindo explained: “A spiritual evolution, an evolution of consciousness in Matter in a constant developing self-formation till the form can reveal the indwelling Spirit, is then the key-note, the central significant motive of the terrestrial existence.” Duration: 100min.

The film is also available at the Sri Aurobindo Ashram website: https://www.youtube.com/watch?v=5LEUSJH4Ec

Friday, 9th April: Paradise or Oblivion 2012 / 48 minutes / Roxanne Meadows

Featuring the life-long work of Social Engineer, Futurist, Inventor and Industrial Designer Jacque Fresco, this presentation advocates a new socio-economic system that is updated to present-day knowledge, which he calls a Resource-Based Economy. This documentary details the root causes of the systemic value disorders and detrimental symptoms caused by our current established system. It also details the need to outgrow today’s dated and inefficient methods of politics, law, business, or any other ‘establishment’ notions of human affairs, and to instead use the methods of science, combined with high technology, to provide for the needs of all the world’s people.

**Note: Families and children are welcome! Dinner for children will be served at 19:00.**

FRIDAY 9th APRIL, 8 PM

MMC AUDITORIUM, Town Hall

“CHARADE”

Directed by Stanley DONEN, USA, 1963

With: Cary Grant, Audrey Hepburn, Walter Matthau

Synopsis: While on a skiing holiday in the French Alps, expatriate American Regina, ‘Reggie’ Lampert tells her friend Sylvie that she has decided to divorce her husband Charles. She also meets a charming American stranger, Peter Joshua. After her holidays, she finds her Paris apartment emptied out and the police inform her that her husband has been murdered in the Paris-Bordeaux train while he was preparing to leave to South America. Another troubling fact is that four different passports were found with his name. It turns out that Reggie knew nothing about her husband - not even his real name... The film has a surprising screenplay, it was a filmed occurrence in Paris. Henry Mancini’s score features the popular theme song Charade and the animated opening titles by Maurice Binder made a sensation. Charade has been described as “the best Hitchcock movie that Hitchcock never made!” A Hollywood classic: comedy, suspense, romance, and beauty...!

Original English version, with English subtitles - Duration: 1h53’***Covid19, please follow the current SOP.**
