A miracle of the Absolute was born;
Infinity put on a finite soul,
All ocean lived within a wandering drop,
A time-made body housed the Illimitable.
To live this Mystery out our souls came here.
Sri Aurobindo, Savitri, p.101

Sri Aurobindo’s 150th Birth Centenary will come on August 15, 2022. In 2021 we begin a year of tribute to honor everything he did for humanity, the earth and the universe. As this year of tribute begins, we look at the beginning of the Sri Aurobindo Ashram, which was formed to help and guide the very first seekers who followed his footsteps on the golden path of consciousness that he brought for all. In Sri Aurobindo’s letters we have his own words describing the consciousness he used to help the early Ashramites, and the work he did together as one with his partner, the Mother of his Ashram.

As well, we have Sri Aurobindo’s letters on his teachings about the Yoga Shakti, the evolutionary power which is usually called the Kundalini power. His teachings go far beyond traditional teachings on the subject.

Finally we have some beautiful and moving personal experiences of Sri Aurobindo and Mother in those very early days.

Mother: And this physical mind, which Sri Aurobindo said was an impossibility and something going round in circles which would do so forever, without consciousness, precisely, like a sort of machine, this physical mind has been converted, it has fallen silent, and in silence it has received inspiration from the Consciousness. And it has started praying again: the same prayers that were earlier in the mind.

Satprem: I quite understand all that can take place in you, but...

Mother: But since it’s taking place in one body, it can take place in all bodies! I am not made of anything different from others. The difference is the consciousness, that’s all. It’s made of exactly the same thing, with the same elements, I eat the same things, and it was made in just the same way.

And it was as dull, as dark, as unconscious, as stubborn as all other bodies in the world.

It began when the doctors declared I was seriously ill, that was the beginning (The turning point of March 16, 1962, culminating on April 13, 1962: the great pulsations). Because the entire body was emptied of its habits and forces, and then, slowly, slowly, the cells woke up to a new receptivity and opened directly to the divine Influence. Every cell is vibrating.

Otherwise, it would be hopeless! If this matter, which began as... Even a stone is already an organization; it was certainly worse than a stone: the inert, absolute Inconscient. Then, little by little, little by little, it awakens. One can see it, you know, one sees it: one just has to open one’s eyes to see it. Well, the same thing is now taking place: for the animal to become a man, it didn’t take anything else than the infusion of a consciousness – a mental consciousness – and now, it’s the awakening of that consciousness which was there, deep down, in the very depths. The mind has withdrawn, the vital has withdrawn, everything has withdrawn; when I was supposedly ill, the mind had gone away, the vital had gone away, and the body was left to itself – purposefully. And that’s why, it’s precisely because the vital and mind had gone that it looked like a very serious illness. And then, in the body left to itself, the cells little by little started awakening to the consciousness (gesture of a rising aspiration); once those two had gone, the consciousness which had been infused into the body THROUGH the vital (from the mind to the vital and from the vital to the body) started slowly, slowly emerging. It began with that burst of Love from all the way up, from the extreme, supreme altitude; then, little by little, little by little, it came down to the body. Then that sort of physical mind, that is, something totally and completely idiotic going round and round in circles, forever repeating the same thing over and over again, cleared up little by little and grew conscious, organized, then fell silent. And then in that silence, the aspiration expressed itself in prayers. (silence)

It’s a denial of all the spiritual assertions of the past: “If you want to live fully conscious of the divine life, leave your body – the body cannot follow.” Well, Sri Aurobindo came and said, “Not only can the body follow, but it can be the base that will manifest the Divine.” The work remains to be done.
But now there is a certitude. The result is still very far – very far ahead, there is much to do before the crust, the outermost surface experience as it is, can manifest what takes place within (not “within” in the spiritual depths: within in the body). For it to be able to manifest what is within... That will come last, which is very good because if it came earlier, we would neglect the work; we would be so happy that we'd forget to complete the work. Everything must have been done within, everything must be fully and thoroughly changed, then the outside will express it.

But it's all ONE SINGLE substance, the very same everywhere, which was unconscious everywhere; and so, the remarkable thing is that things are taking place AUTOMATICALLY (gesture of points scattered throughout the world), quite unexpected things here and there, even in people who don't know anything. (silence)

These material cells had to gain the capacity to receive and manifest the consciousness; and what permits a radical transformation is that instead of an ascent which is so to speak eternal and indefinite, there is the appearance of a new type – a descent from above. The previous descent was a mental one, while this is what Sri Aurobindo calls a “supramental descent”; the impression is, a descent of the supreme Consciousness infusing itself into something capable of receiving and manifesting it. Then, out of that, once it has been thoroughly kneaded (there's no knowing how much time it will take), a new form will be born, which will be the form Sri Aurobindo called supramental – it will be... anything, I don't know what those beings will be called.

What will be their mode of expression? How will they make themselves understood and so on?... In man, it developed very slowly. Only, mind has done a lot of kneading and, after all, has made things move faster.

How will we get there?... There will certainly be stages in the manifestation with, perhaps, a specimen that will come and say, “Here is how it is.” (Mother looks in front of her) One can see that.

Only, when man emerged from the animal, there was no way to record – to note and record the process; now it's quite different, so it will be more interesting. (silence)

But even at this moment in time, the vast majority – the vast majority – of human intellectuality is perfectly satisfied being busy with itself, satisfied with its little progress like this (Mother draws a microscopic circle). It doesn't even, doesn't even have a desire for something else!

Which means the advent of the superhuman being may well... it may very well go unnoticed, or not be understood. We can't say, because there is no analogy; it's obvious that if one of the apes, the large apes, had met the first man, he would just have felt there was a somewhat... strange being, that's all. But now it's different because man thinks, reasons....

But anything higher than him man has been used to thinking of as... divine beings; that is to say, bodiless beings, appearing in the light, anyway all the gods in human conception – but it's not that at all! (long silence)

2. The FAMC endorsed project approval for “The Sprout”: a restaurant and hydroponic farm.

BCC

1. The FAMC selected new BCC members: Aurosugan, Cristina, Fabien, and Mathan. For more details about the selection, please see our post on Auronet: https://auroville.org.in/article/84876.

Housing Board/Service

1. Maitreye I residents requested to revert a Newcomer flat into a permanent residence. The community members also voiced their support for the newcomer family living in this flat who were to become Aurovilians once they find permanent housing to continue to live there. FAMC agreed to the request to convert the flat to a permanent residence. It is noted that this is a reversion back to its original purpose.

2. Housing Board, due to lack of quorum and/or conflict of interest, requested the FAMC to handle two housing allocations:

   a. In Dana (formerly Roma’s house). This was offered under the designation, “Housing against Recognised Work”. FAMC reviewed the eligibility criteria of the three shortlisted candidates provided by the Housing Board, conducted the interviews and consolidated the inputs of the community residents concerning the applicants. The FAMC after a thoughtful discussion decided to allocate the house to Juan & Camilla.

   b. In Inspiration (former Krishan Meyer flat). This was offered as a pro-bono allocation. The FAMC reviewed all material provided by the Housing Board and the various support letters for the two candidates. It was agreed to allocate the flat to Velu & his family, who was also one of the applicants for the house in Dana.

The FAMC conveyed their decisions to the Housing Board for implementation. Implementation of both decisions was kept pending due to an appeal which was filed against the FAMC decision wrt the Inspiration flat.
3. The FAMC started the selection process for the new Housing Board members: 5 community-at-large members and representative members from the ATDC, Housing Service & FAMC. The process and selection of the community-at-large members was started with the support of the Auroville Council.

**Auroville Council**

1. On request from the Auroville Council the FAMC shared its nominations of the four members from the community at large for the Land Board Selection Committee.

**Working Committee**

1. The Working Committee requested the FAMC to review financial details of Serendipity following an allegation by an Aurovilian dismissed from said unit. Then the FAMC requested the Funds & Assets Resource Group (FARG) to conduct the review.

2. The Working Committee requested the FAMC to have two members join as the financial liaisons to help with issues related to finances and asset management. This topic was initially raised due to the passing of Werner Stoff and his legacy pertaining to the funds and assets left behind by him in Prayatna.

**Land Board**

1. The FAMC sought clarity from the Land Board to understand the Land Board’s internal process with regards to funds allocation for fencing both in general, and specifically to one fencing matter in Eternity. This was in relation to a query raised about a Government of India (GoI) capital grant received and spent by the Land Board. The query was settled.

**Miscellaneous:**

1. Final signed hard copy of the GOI budget requests 2021-22 were prepared and submitted following the soft copy submission.

2. Helen and Manjula presented to some FAMC members their interim research findings on “Exploring Auroville’s Capacity to Flourish.”

3. A joint task group of the BCC, FAMC and Working Committee regretfully informed the community that the Solar Kitchen would be closed from June 1st 2021. The reason for closure was that running the Solar Kitchen had become economically nonviable under the present management, due to various pressures related to the Covid-19 crisis that started in March 2020. The BCC along with the FAMC and Working Committee looked at the next steps for restructuring the Solar Kitchen and its management with a new vision, scope of work and a broader team so that the Solar Kitchen would continue as a central community service well into the future.

   A subgroup proceeded with the retrenchment of the employees with details provided by the resigning executives of Solar Kitchen.

   With input from the Solar Kitchen subgroup, the new Solar Kitchen ‘management parameters’ were formulated. In June 2021 the FAMC formed a small group to look into the allegations raised by workers of the Solar Kitchen. The findings of that review are still pending.

4. After reviewing the material provided, the FAMC endorsed the PTPS management / advisory group document on request by the Auroville Service Trust trustees. The Auroville Service Trust will lead the process as described in the document and an FAMC member joined a subgroup during the selection process. This Advisory Group will advise the executives, and monitor the running of the service.
5. Auroville received a generous donation to create a ‘worker relief’ fund linked to the covid 19 crisis. The donation will be disbursed via MERA, and follow the administration and accounting practices set up for such emergency donations. The guiding principles of MERA – who is MERA, what kind of projects are eligible, how are funds received, disbursed, reviewed and accountant for, how will MERA communicate it’s work, were reviewed and approved.

MERA, a unit under Health and Healing Trust, scope of work: “To receive and disburse funds during an emergency in an accountable fashion; to approve projects to relieve said emergency.”

Executives are appointed on a yearly basis. Mr. Drhrv Bhasker, Ms. Nina Mahi Zadrozny Pereira & Ms. Aneeta Pathak each resigned, and Ms. Suryamayi Clarence-Smith, Mr. Hemant Lamba & Mr. Stephan Himmer were appointed as executives. Mr. E. Rathinam was reappointed.

6. The FAMC approved guest houses in Hospitality Trusts to regain access to the billing system to issue vouchers, track payments etc, as this billing system is the forerunner of the Dashboard booking system and both originated from the Guest Facilitation Coordination Group work. These systems are meant to serve the whole guest sector in Auroville.

Other

Errata statement to April FAMC report: the resignation of Mr. Emanuele Scanziani as executive of Naturally Auroville, under GNP Trust, was in principle agreed to. However implementation is pending until Mr. Jean-Francois, the only other executive, finds a replacement which is approved by the FAMC.

Errata statement to April FAMC report: pertaining to the proposed City Center Canteen, point D: “The Canteen building was created without the No Objection Certificate (NoC) of TDC” – To be more precise: the conversion of a storeroom into a canteen and the extension in the front area was done without a NoC (No Objection Certificate) from TDC.

Dear Town Hall users, this is to inform you about a change in the accessibility of the main gate. This gate used to be kept open, but as over the years more and more vehicles entered without valid reason, we once more try to limit this. Therefore we now keep the main gate closed and only allow delivery vehicles and other necessary traffic.

Also, a small brick barrier was put in place today to prevent motorcycle traffic entering from that side. Motorcycles should be parked at the Parking shed.

We apologize for not informing everyone earlier. We regret the inconvenience this barrier may have caused to some of you. The small barrier of one brick height will be painted red and white for visibility.

We welcome constructive feedback so we can reflect and implement if necessary.

Gratitude, ACUR team, Management team,

INDIAN CLASSICAL MUSIC AND DANCE CONCERT

Shri Krishna Rasa Panchamrutam
29th August, 7:30-8:30pm at Mini Amphitheatre, Matrimandir.

Arpanaa, (a service under AV City Services) is delighted to present a unique Indian Classical Music and Dance concert.

This program commemorates the auspicious occasion of Janmashtami-The Birth Celebration of Lord Krishna!

Sri Krishna has come to occupy a place of pride in the life and world of people across the length and breadth of India and the world. Sparkling with divinity and sweetness in almost every aspect of His Self and Being, He is etched deeply in the minds and hearts of his devotees.

The Bhagavatam and the song celestial, Geeta have described his life and teachings in great detail. Given the beauty and charm of these stories, they tend to fill us with delight even on being heard again and again.

Krishna as a godhead is the Lord of Ananda, Love and Bhakti; as an incarnation, he manifests the union of wisdom (Jnana) and works and leads the earth-evolution through this towards union with the Divine by Ananda, Love and Bhakti, says Sri Aurobindo.

The Sri Krishna Rasa Panchamrutham, presented by Dr. Jayanti Ravi and ensemble is an attempt to bring this ‘nectar’ from the life and times of Lord Sri Krishna in an intricately woven format that weaves in ‘Katha’(storytelling) along with ‘Geetham’ (music) and ‘Nritya’(dance).

The Secretary AV Foundation, Dr. Jayanti Ravi is an eminent classical vocalist with training spanning varied genres of Indian music including Carnatic, Hindustani, Abhangs, Shabads and Sugam-Sangeet. She will be rendering the stories and the songs in this thematic concert.

Joining her is her daughter Krupa Ravi a talented young Bharatnatyam exponent of the Kalakshetra style. They will be accompanied by other eminent musicians.

This concert is presented as an offering at the Matrimandir and hence there will be no announcements during the programme and we request members of the community to please refrain from applause.

Arpanaa invites you all to be a part of this beautiful artistic experience. arpanaa@auroville.org.in, Geeta(Kalpana) and Yogini(Kalpana)

SKETCHING MY WAY HOME
Lisa Suchanek

This exhibition of monochrome ink sketches is a glimpse into Lisa’s process of self-discovery through painting. She explores topics such as the central nervous system, setting clear intentions, setting healthy boundaries, self and co-regulation, self-compassion, self-humour, humility and stillness. In her art practice she focuses on noticing (sometimes elegantly, sometimes clumsily) the experience of being at home in herself.

Pausing to make marks on paper, to create textures with paint, to explore ideas with brush strokes, has the power to be a microcosm of our psychological and physical patterns. Lisa uses sketching as a subtle practice of slowly expanding the space between her thoughts, feelings, sensations and the way she reacts to them.

For her, art is a way to befriend and transform her body in movement and her mind through active listening. Instead of trying to forcefully transcend her messy humanness, she wishes to embrace it and playfully lean into transformation.

Artist Bio
Lisa Suchanek is an artist who grew up in Auroville amongst the trees, the red dirt and Windows 95. In the Netherlands, she received a BA in Liberal Arts and Sciences as well as an MA in Media Studies where she specialised in sound. Although her focus on media, philosophy and art seemed to fit her well, she felt something was missing. The last two years she has been curiously inquiring inwardly and outwardly into various body centred healing practices and psychological theories that embrace inner multiplicity. She gradually began to apply these modalities to her painting as a practice of embodiment, of unlearning, of self-discover and healing. She intends to approach her life with a beginner’s mind and an open heart.

“ONE MORE STEP” FILM

Bharat Nivas
Presents

Synopsis & Other Information of the Film
“One More Step”

Venue: Bhumika Hall
Time: 5.30pm
Date: 21st Saturday 2021.

About the film:
One More Step - In many ways a courageous attempt at bringing Sri Aurobindo’s Vision of man and his future to a lay person. Gautam, a successful professional unable to cope with himself and his life, discovers, almost by accident, Sri Aurobindo, while visiting an erstwhile senior colleague. Through his growing intimacy with him, a whole new dimension comes into focus and he begins to look at his life, himself and the world differently. Will his ceaseless curiosity bring Gautam the much yearned for release from his life’s overwhelming emptiness? One More Step describes this journey of self-discovery that is not unknown to many of us here. And along with it, the film endeavours to make Sri Aurobindo’s Teaching a little more accessible to the neophyte by relating it to his life’s ultimate quest.

Directed by - Debajyoti Ghosh
Original Scriptwriter and Producer: Kush Sen
Main Artists: Gaurav Bose, Maurice Shukla, Auroposee, Bardhan, Monica Dalai and Sarbani Sen.

In March 2010, Karl-Heinz Posch, an Austrian Mobility Planner who is the Coordinator European Platform on Mobility Management, ran a one-week workshop on traffic and mobility issues in Auroville. A few days later he summarized the process and outcome of the workshop for interested Aurovilians. Here are some of the main points.

The objectives of the workshop were to look at Auroville’s long-term vision for traffic and mobility management within the city area and to see what the implications of this vision are for today. It began with a practical example of Zurich of how mobility patterns can be changed. Its lesson for Auroville is that careful planning can influence mobility patterns and that any new development needs to take mobility into account, so that for example the use of cycling is encouraged by providing well-shaded cycle paths in the vicinity.

In 1960 many large cities had major traffic problems. Pedestrians and cyclists felt unsafe on streets which were designed primarily for cars. Roads could not take the sheer number of vehicles. The first response was traffic segregation: separate lanes or spaces for cars and pedestrians.

However, a Dutch mobility planner noticed that segregation was not reducing the number of accidents. On the contrary, because cars no longer needed to worry about pedestrians and other ‘hazards’, they tended to travel faster, which led to more accidents.

Consequently, he and others developed the concept of a ‘shared space’ where streets and squares are carefully designed in such a way that the space is shared by cars, cyclists and pedestrians with minimum of barriers, traffic lights and other restrictions. Such a space causes everybody to be more conscious of the needs of others while allowing easy ‘organic’ mobility. It turned out that shared spaces are often safer and more efficient at easing traffic flow than highly-regulated traffic, so it’s no surprise that they are being implemented in more and more cities in the West.

Karl-Heinz worked with other Aurovilians to design an area around the Solar Kitchen which could operate as a kind of shared space. In this concept, the crown would be shared by cyclists, pedestrians and non-polluting public transport and would become a Crown Street, broken up by trees and plazas, meandering through the dense urban fabric of the city. Pedestrians would be prioritized so it would be a place where children could play, conforming to Karl-Heinz’s definition of sustainable urban mobility planning – “a way of planning a city where our children and their children would like to live”.

DEPRESSION AND DIET

While more and more Aurovilians seem to savour the taste of meat, few people make the conscious connection between meat eating and the way the animals that they consume are treated. The sight of chickens huddled together in fear at roadside slaughterhouses is so common that we are conditioned and don’t give it thought any more.

We also avert our gaze from the carcasses at roadside slaughter shops. But the fact is that the anxiety, fear and despair of these animals has a direct consequence on our own state of mind.

Like our own, the emotions of animals are directly linked to chemicals and hormones produced by the body. When we consume the meat of animals, we are also consuming their hormones, and this in turn brings about changes in our state of mind. Since hormones don’t leave our bodies as quickly as they can enter, and since even tiny quantities can affect us, such mental and emotional changes may not be recognised as a consequence of a particular meal.

The effect of a hormone can last for many days. For all these reasons, the connection between emotions and food is often not made.

Many among us suffer from psychological issues such as phobias, anxieties, or depression. An eminent physician, Dr Neil Nedley has done extensive work in this field and has written several books on the topic. He also runs recovery programs for these diseases. If you suffer from emotional issues, it is worth learning more about how nutrition can help you. It’s worth trying a 30-day plant based nutrition challenge so as to cleanse your body of hormones that may affect your mental wellbeing. Most psychiatric drugs are highly addictive because they are chemicals that affect our emotions. If they can be avoided through diet, why not?

In the video talk, Dr. Larry Seidlitz elaborates on the deeper nature of love, on the love which is eternal and can stand up to death, as it is explained in Sri Aurobindo’s Savitri, in his Letters on Yoga, and in some of the Mother’s talks with the students of the Ashram school.

Dr. Seidlitz starts with The Debate of Love and Death in Book X of Savitri and goes on to show how limited is human understanding, and even the understanding of Death himself, when confronted with Savitri’s powerful action of Divine Love, Truth and Consciousness.

In his debate with Savitri, Death argues that he is the beginning and end of all things: I, Death, am He; there is no other God. / All from my depths are born, they live by death; / All to my depths return and are no more… In his arguments, Death often expresses the views on the nature of Truth which mankind holds, the views according to which life is ephemeral, and is inevitably headed towards termination and nothingness.

But Savitri, conscious of her divine origin, of her eternal existence and oneness with all, powerfully expresses her determination to Death: I am, I love, I see, I act, I will. /…When I have loved for ever, I shall know. / Love in me knows the truth all changings mask…

And she refuses to accept Death’s distorted beliefs: O Death, thou speakest truth but truth that slays, / I answer to thee with the Truth that saves… She also claims that the Divine is immanent in the world and is gradually manifesting its ever-growing powers.

In her talk with children in 1956, the Mother stressed that it is because of the descent of the Divine Love into the creation that the creation can evolve and progress towards reunification with the Divine.

Moreover, that human beings cannot really tolerate Divine Love in its purity; it is too powerful for them to bear. Nevertheless, the Divine Love in its form of Grace does its work and gradually raises us up towards its Divine Nature. Similarly, in one of his Letters on Yoga, Sri Aurobindo explains that human consciousness must first be transformed to bear and become a receptacle of the Divine Love in all its intensity.

It is only the Divine Power, the Mother’s Force that can free human beings from the continuous assault of hostile forces, which influence and hold sway over the lower vital and physical nature.

The speaker concludes that one of the best ways to support the evolutionary work happening on earth and in us, and to open up to further transformation, is to cultivate a deep, integral and constant love for the Divine, for Sri Aurobindo and the Mother, and for their work in establishing a pure and outwardly visible manifestation of the Divine Consciousness, Love and Ananda.

The video talk can also be seen at the Savitri Bhavan website [http://savitribhavan.org/777-2/].

Integral regression therapy
21 Aug 9 – 12 am, Intro Session

A therapy and energy work based on Sri Aurobindo and The Mothers integral Yoga, integrating trauma therapy, pastlife regression therapy, inner child work, NLP, and a client centric approach.

Typically, integral regression therapy addresses unexplainable pains, traumata from accidents or early childhood, questions about past lives, life purpose or restricting behaviour patterns.

Sigrid Lindemann offers an in-depths training through a series of webinars, in which the theory of this deeply healing approach is transmitted.

Therapists wishing to integrate this approach in their psychotherapeutic or body-mind – healing work shall add 4 presence sessions as in 3 day workshops in Auroville. Details can be send.

Sigrid Lindemann is integrating her large professional background in this focussed approach to transforming deep, longstanding issues towards an evolving consciousness and purpose of life. Sigrid is a transpersonal regressiontherapist, trainer in hypnotherapy and teacher of advanced classical homeopathy, with her background in Integral Yoga, living over 20 years in Auroville, Pondicherry.
