MUSIC COURSES

1. Musical Aural training/Solfeggio, aims to develop a sense of pitch and rhythm, through individual and group exercises, and thus allow one to translate sounds into and from Musical notation.

2. Harmony, Music Theory & Counterpoint, aims at giving us the tools to understand how different types of music are built, and also help us to create our own musical compositions.

3. Music Composition is where we look at and discuss different topics relevant to composers, and we also look at different compositions, as well as our own pieces, and we create different exercises to help us become more fluent in writing/composing our own music.

These are courses loosely based on international Music Conservatory Programmes as well as musical higher studies, but flexible to our own informal setting, and adapted to suit our different levels.

Open to all. Regular attendance is encouraged.
Limited places. Basic to advanced levels.

For further information, and if interested, please contact Pushkar at pushkar@auroville.org.in
