The Ponder Corner

It is the very nature of the soul or the psychic being to turn towards the divine Truth as the sunflower to the sun; it accepts and clings to all that is divine or progressing towards divinity, and draws back from all that is a perversion or a denial of it, from all that is false and undivine.

The Cellular Contagion

This Matter...

The place of the greatest obstacle is certainly the place of the greatest discovery — as always, the obstacle is a door onto a greater power, it is an old way of being or an old rut being undone to give way to... something else. We have not ceased living that throughout Evolution. Under the formidable Pressure of this inrush of Energy which appears like the death of our way of being “alive,” the cell does not cease telling us its immortality, its cosmic sense.

But immortality in this Prison? In this armature of lime stone, with all the residual needs of the old animal evolution? When the old reptile became a bird, it was certainly an “airing” of its system (!), but how many millennia and pains did it take to turn these fins into legs and wings?... It hurts a lot in an old skeleton — you can also notice it when this Energy comes and crushes the walls of your old Prison. But here, in the case of the current evolutionary specimen, it is not a question of growing wings or some other organ that would still be an extension of the old machine, with different limitations, not a question of broadening or amplifying the powers of the same old thing — and certainly not a question. of becoming more “saintly” (horror!) or more “intelligent” (though that would not be so bad in view of the rampant blindness), for the body has the whole cosmic intelligence which we lack under our various clothings. It is the very substance of this Matter, the very organization of this Matter, its brittle and wearing rigidity that must change. We die not only of our own foolishness and our own animal darkness — and that is a boon, seeing what would be the frightful horror of the immortality of the reigning fakers and showmen— but we die of this very Prison of matter: any slightly enlightened, refined, purified being thirsts for a way out, and has always done so; as soon as he ever so slightly touches that heaven above, he feels like stretching out there, melting in that great eternal Rhythm, in that unwalled Light. But this sort of concentration camp below... And that “liberation” is not meant for one lone spirit. That spirit comes back — it comes back again and again because the true Law of this world is not to be forever in this never-improved concentration camp. There is a Spirit of the world, a cosmic Spirit that wants Its Law. And none of these false laws, illusory or momentary, and cruel. In one of his Aphorisms, Sri Aurobindo said with his ever-present touch of humor: “For my part, I think I have a right to insist on God giving Himself to me in the world as well as out of it. Why did He make it at all, if He wanted to escape that obligation?”

Then, in this cosmic perspective, He clearly wants not only consciousnesses to change, but this Matter to change, too — this abominable concentration camp, which may have been very harmonious and orderly in the age of birds, even of reptiles, and of all the little species that preceded us, but which is no more that at all, and is now wholly dying for that reason, dragging all species along in its devouring madness.

Our misfortune is perhaps also our chance — our last chance to get out of this mad hybrid species, instead of going round in circles.

So this very Prison, this very Matter — or what it appears to be — must change. There were past attempts, and the Vedic Rishis spoke of a “body of light”, \(jyotirmaya deha\); later there were great beings like Ramakrishna, whose body was enveloped in light, and some traditions spoke of a “glorified body,” but all that lies in uncertain regions of life, and the body was generally regarded as an instrument to be given up once spiritual “realization” had been attained — which is not Sri Aurobindo’s opinion:

“While this conception of the role of the body in our destiny is suitable enough for a sadhana (yogic discipline that sees earth only as a field of the ignorance and earth-life as a preparation for a saving withdrawal from life... it is insufficient for a sadhana which conceives of a divine life upon earth and liberation of earth-nature itself as part of a total purpose of the embodiment of the spirit here. If a total trans formation of the being is our aim, a transformation of the body must be an indispensable part of it, without that no full divine life on earth is possible.”

That is what Sri Aurobindo wrote at the end of his exploration in the body, in 1950, after forty years of work.

It may seem quite mad or impossible, but if you say that to a cell, it smiles — and searches for the solution.

MEETING REPORT
These are the compiled notes of three Forest Group meetings for August, September and October.

Forest Group meeting minutes
Infinity 13/8/2021
Present: Rita, Fabian, Hans, David, Dave, Andreanne, Mathieu, Cristo, Agnes, Jan, Alyona, Ancolie, Andrey, An- geline and Mira (IAF volunteer), Jean-Luc, Glenn, Elum- alai, Noe, Achilles, Christoph, Segar, Kanniyapan, D. Renu, RiK, Vengadesh, Yuvak, Eric, Laurence, Manalo, Vikram (Chair), Philippe (Notes)
• Glenn reminded that it was the right time for preparing projects involving planting.
• Achilles brought to our attention a project of extension of Velu’s house in Baraka. No objection was raised.
• We got 2 additional requests for maintenance (Andrej and D. Renu), but they can only be added to the waiting list due to budget limitations.
• Finally, a quick report was given about Infinity (where the meeting happened), eg. a good collaboration with White Mongoose (in a neighboring private plot).

Forest Group meeting minutes
Bliss/Youth Centre 3/9/2021
Present: Agnes, Bernd, Andreanne, Mathieu, Vinny (all Hermitage), Vengadesh, Hans (both Abri Forest), Da- vid (Aurodam), P. Elumalai, Manalo (Bliss), Christoph (Bliss, Anusuya), Jan (Fertile Field), Kanniyapan, Fabian (both Pitchandikulam Forest), Yuval, Jonah (Eternity), Balu (Anagabhoomi), Kumar (Adventure), Rita (Centrefield), Jean-Luc, Cristo (both Revelation), Sandeep (Fertile), An- drey (Infinity), Eric, Achilles (Baraka), Philippe (Kalpana), Noe (New Lands), Ancolie (Evergreen), Henrike (Mango Field), Island (Espace), Segar (Equality)

1. Housing in Espace
There was a discussion around the house formerly built and staved by Dominik who recently left for Switzerland. The future steward of the house has to share infrastructure with neighbours and needs to be committed to work in the Forest as a caretaker and once the caretaker period is over, hopefully, as co-steward of Espace forest. In the meeting it was felt that Manolo (who presently lives in the house since Dominik’s departure would be a fitting choice as he fits the requirements of the place, already has a working relationship with Island. Furthermore, the place he used to occupy in Bliss is impacted by the opening up of the area for the future Crown. Another person interested in the place was Philippe who presently resides as house-sitter in Kalpana.

2. Crown issue in regards to Bliss/Youth Centre
There was a long and emotional update on the situation, the work that has happened, the various meetings and a discussion on the impact this pressure has on the land, the people affected and the future development of Auroville. As we understand the Forest Group meetings as a safe space to voice individual opinions, share emotions and talk about sensitive issues, it was agreed that this particular discussion would not be published in the notes. This topic also touched the difficulties in having an active Residents Assembly and proposals to address this were briefly introduced.

3. Hermitage
The Forest Group heard about inter-community tensions in Hermitage. It was agreed that a sub-group (Ancolie, Joi- nah, Fabian, Aurosylle) would be formed to visit the place and hear from the various members. In process.

4. Azhaguabhoomi
Balu reported some encroachment issues which despite him being in touch with the Land Board are not seemingly solved. Yuval will follow up with him.

Forest Group Meeting Minutes – Espace 1/10/2021
Present: R. Kanniyapan (Pitchandikulam Forest), D. Segar, T. Saga (Azhagubhoomi), G. Vengatesh (Abri For- est), Rita (Center Field), Manu (Meadow), Manolo (Bliss, Espace, YC), Hans (Abri Forest), David (Aurodam), An- dreanne (Hermitage), Matthieu (Hermitage), Island (E- pace) (notes, chair), Archana (Siddhartha Forest), Cristo (Revelation), Claudine (Minati), Andrey (Infinity), Jessamyn (Udumbu), Vinny (Hermitage), P. Elamalai (Bliss), Ana (Ex- istence), Christoph (Bliss/Anusuya)

Topics: Hans
• The budget that was cut by 10% 2 years ago is now restored and adjusted by a further increase of 6% due to wage increases.
• The FAMC has invited the Forest Group to discuss how to have a more organized/standardized method of keeping accounts that works for everyone. The initial meeting scheduled for Oct 5th cannot be attended by a majority of representatives so a later meeting date will need to be agreed upon.
• The Secretary of the Auroville Foundation would like to do an envisioning of development priorities by doing an assessment of needs with members of Auroville Work- ing Groups during the first or second week of October 2021, facilitated by Arun from Working Committee and Toine. Representatives are still to be identified to go to this meeting.

Segar: Currently getting a half maintenance for working in Aranya. Requesting to get a full maintenance. He will be put on the waiting list if Hans confirms with Saravanavan (Aranya Steward) that the work is being put in.

Manolo: Currently getting a maintenance from the Youth Centre (YC). Working as Bliss Forest steward and a care- taker of Espace Forest. Would like to shift the maintenance from YC to forest to reflect the work done and to allow someone working in the YC to have the opportunity to bene- fit from the maintenance. To be put on the waiting list.

Manu: Many wild pigs are being spotted all over AV. It may soon be time to look into solutions to manage them as they can cause significant damage to crops and seedlings. Anyone thinking to cull a pig should ascertain if it is legal to do so by checking up to date information. No clarity on this is currently available.

Christoph: Updated that the area in the vicinity of the po- tential crown corridor is being worked on to find something for all stakeholders to agree to.

Forest group meeting notes
5 Nov 2021, Aurodam

Aurodam announcements
Suraj – a videographer from Mumbai - is volunteering at Aurodam, working with David.
• David’s leg and general health are doing great!
• Mina would like to become Aurovilian, she has worked in Aurodam (in the nursery and tree planting) for 34 years.

Vision and reality meetings
The vision and reality meetings that had been paused because of Covid will resume at Botanical Gardens 3.30pm every 3d Friday of the month from this November onward.

Evergreen- Sprout
ATDC sent an email to the forest group informing them that the plot between road service and sustenance farm (currently under the stewardship of Evergreen forest) had been approved for the development of The Sprout. Stating that this was a hydroponic farm which included a training and educational component. Members of the forest group responded in surprise at the lack of communication and process as the email did not even include a project proposal. A brief of the required procedure was sent. This broadly included a baseline data survey, impact assessment and mitigation strategies. Members of the Evergreen community were happy to meet and further discuss the participatory process needed for collaboration. At the meeting there was a single member of the ATDC and the project holders who shared the proposal that stated that it was a restaurant with a hydroponic farm. This was communicated at the forest group meeting where the need for a collaborative process reiterated.

Development in AV forest areas
With regards to the infrastructural developments that are happening in Auroville’s forests, we, the forest group, have collaborated as far as we could, believing in the need to do this in dialogue and meeting each other in compromise, with respect for processes.

We believe in a community process in the spirit of Auroville and until this is done, we feel strongly that no action should be taken.

Green Group
The Green group needs new members, please come forward.

Hermitage
A team (Jonah, Auroylla, Fabian and Ancolie) went to meet the Hermitage community to understand the issues that are between them. The group felt strongly that it is most important to keep the forest together under one stewardship.

Follow up will take place.

Udumbu
Amy and Chris would like to join Udumbu and build a house in the same location where previously an application was made for. Chris/Jessamijn will send the request per email to the FG so that it can be discussed in the next meeting.

Reminder of general steps for building application to FG:
1. Send email to the FG with the request + drawings + site location;
2. We discuss these in the first following FG meeting;
3. We decide on the application in the meeting thereafter.

Maintenance request
Segar is asking for a temporary emergency maintenance. Follow up by Hans with Saravanan (Aranya, where Segar is working) and BCC is required.

Next meeting is at Eternity, Friday 3 Dec ‘21, 3.00 pm.

Warmly, Jessamijn

PARTICIPATE IN OUR COMMUNITY BUDGETING PROCESS

Dear Community, the BCC is currently preparing the City Services budget for the coming financial year (1 April 2022 – 31 March 2023) and would like to understand from the community whether they feel the budget is being allocated in a way which meets community needs and aims. Specifically, we would like to understand:

- What do people consider to be priority areas for community funding? And how can this be reflected in budgetary allocations?
- Are there any key services missing in our community, or existing services that should be budgeted for?
- Where should funds come from to support our communal needs?

Therefore we are planning a series of engagements with the community throughout January and February, to help build the community’s understanding of the current budgetary allocations and also to help the BCC to better understand if these are serving the needs of the community.

We will use the outcomes of this process to inform the upcoming 2022/23 City Services budget. If any major changes are requested by the community these will be phased in over a longer time period, to avoid any abrupt changes for services and those supported by them as well as working in them.

We are planning two levels of engagement:

10. Presentations and Q&A sessions, as well as a survey, open to the whole community.
11. Detailed in-depth facilitated sessions with a randomly selected group of Aurovilians.

We have chosen to draw Aurovilians at random for the in depth facilitated discussions, rather than choosing people to represent a particular sector. We hope this will enable us to gain a deeper understanding of how the budget impacts the wider community.

The potential (up to 30) participants have been selected from the masterlist using random ordering in a process overseen by the RAS, and filmed to ensure transparency.

Whether or not you have been randomly selected for the in-depth sessions, we hope you will participate in the community-wide sessions.

The first of these will be held in early January at Unity Pavilion:

- Friday 7 January: 4.30 – 6.00pm - Presentation of the City Services budgetary report of the last financial year (20-21), followed by Q&A
- Tuesday 11 January: 4.30 - 6.30pm - small group discussions to provide in-depth information on the various sectors of community services supported by the City Services budget.

These will be followed by the in-depth discussions with the randomly selected group of participants, the outcomes of which will be presented back to the community. Following this, a community survey will be circulated. The results will be shared with the community, along with the next steps identified to implement the inputs into the budgeting process.

We are looking forward to engaging with the community on our collective budget following these two unusual and challenging years, and starting the next cycle with a common understanding of our budgetary needs and aims.

In community, thank you, Suryamayi for BCC office
Your BCC members (Aurosgan, Danny, Enrica, Fabien, Hans, Inge, Mahi, Mathan, Rathinam, Suryamayi)

Bernard Borg Passes

This is to inform the community that in the late afternoon of Sunday, 28 November, our long-term friend, brother, pioneer and comrade Bernard Borg very peacefully left his body at the age of 75 in his home, surrounded by his family.

Data about the funeral will be announced in due time. An obituary will be posted on Auronet.

Our warmest condolences and strength go to his daughters Aurokali, Aurokripa, Mirrabelle and Saoumya, his grandchildren Matteo, Mahiran, Ilengo and Ishan, and other close family members.

AUROVILLE MATTERS

SRI AUROBINDO’S MAHASAMADHI

5 December, 6 – 6.30 am
Meditation Under the Banyan Tree.

Open to Aurovilians, Newcomers and Aurocard Holders only. Entrance from the Office Gate from 5.45 to 6.15 am.
• **Loretta** will show how we can go consciously through the death process. She will talk about Mother’s work of making the whole death process better for mankind and how she was born for this work. Then she will tell the things Sri Aurobindo and Mother teach about why we die, and what Mother says about how to avoid them. (loretta@auroville.org.in)

• **Paulette** will summarize Sri Aurobindo and the Mother describing the process of death and one’s condition at that moment, what happens afterward, the role of the psychic being, and reincarnation. As Sri Aurobindo wrote, one has to begin at the beginning, and that his own path commences where all Yoga ends. This means focusing particularly on the spiritual transformation of Integral Yoga. (paulette@auroville.org.in)

• **Matthijs** will address the crucial role physical death has played in facilitating not only our biological but also our spiritual evolution. From there he will focus on the need to concentrate first on finding the core of our being which is already immortal, and how we can invite That to influence the rest of our nature, so that it begins to operate more in harmony with the power of immortal Love supporting the world. Till that process is complete, physical death will be inevitable. (matthijs@ipi.org.in)

BACKGROUND

To The Content
"As a civilization, religion has exploited the power of sculpture fully to hypnotize people with form and shape. This is where my work departs from and continues its journey into finding new meanings in form." Durugadda describes his creations as "objects of inquiry into human behaviour," that is, not something strictly visual, but a vision to be experienced holistically.

This thoroughly ‘natural’ quality is something that is difficult not to translate into an ‘anti-humanist’ ideal of art- as the artist says himself, “we are nature”- so it was hardly surprising to hear of the influence of indigenous arts and lifestyles on his own. While Harsha himself prefers the term ‘non-human planetary approach’, his ideas on coevolution and “natural human arrogance” seems to plant him firmly as a middle-of-the-road anti-humanist; not a bad place to be these days, considering the contemporary artistic void in these ideological regions. “To move away from the human obsession and to bring the smallest microbe to the forefront” is Durugadda’s stated goal, in life and in art.

But this practice of finding new meanings in form is a tricky one to formulate in language (again, a watermark of interesting contemporary art); verbally, it would seem that the abstraction of experience is Harsha’s goal, when really it is a modus operandi, a method of connection with the viewer. Freeing sculpture from traditionalist moorings, in this case, is truly an architectural practice, with scale being the only differentiating factor. Contemporary sculpture has become obsessed with scale- the idea that anything can be impactful if it’s big enough. Paul McCarthy, Jeff Koons, Louise Bourgeois, Vasconcelos, Chihuly… how many of the big names have made careers out of this simple premise? Scale offers instant prestige, and even more importantly, confers upon the artist that unique ability to make anything seem impressive, genius, necessary even (all of these, and perhaps Vasconcelos in particular, are complicit in a post-modern tradition succinctly identified by Lester Bangs in his 1971 review of a Captain Beefheart album- “pretenders by the truckloads have failed…to make the crucial distinction between art commenting on society and flat-out polemics.”) One can see in Durugadda shades of a different tradition, one that hasn’t been worked on or tinkered with since the days of Maria Martins, Giacometti, Henry Moore, and Hepworth. This is a tradition of natural evocation, a flipside to contemporary discourse. When I heard his greatest influences were architectural, I wasn’t fazed in the least (in fact, the aforementioned sculptors emerged as points of reference later while shifting between observing and writing). The first associations that came to mind upon looking at his work were the alien yet natural structures of Frank Lloyd Wright (the Guggenheim in particular) and, especially, Antonio Gaudi. Their monumental work, scale is more incidental than a primary focus; if anything, it is a factor to be overcome, in order to bring a sense of intimacy and movement to something grand and necessarily stationary.

Harsha Durugadda’s work is neither grand nor stationary. The qualities he strives for and brings to the ever-widening world of 3-D art is, currently, largely unique; in the end, it’s the artist’s own words that describe his creations best- “I draw from dynamic living practices… whirling dervishes, Buddhist prayer wheels, fluttering of leaves- none of these are static forms. This is what makes my work occupy a more fluid form.” Indeed it does.

PROBIOTICS HOUSE TIP SERIES # 33

How to Whiten Sheets in 4 Simple Steps

You might have observed how almost every hotel provides the same standard towel in every room. They are big, fluffy, soft, and white. Does this mean that every hotel buys their towels from the same company?

Is there some secret brand that provides towels to just hotels? Well, the answer is no. All of them might look quite similar, but they are constructed differently. Most hotels tend to stick to white standard towels to match their interior design. But the big question is, how do they keep them so white? Different hotels have different tricks to keep their towels from going gray. While some may focus on using special detergents, others invest in their washing machines.

According to one Indian Eco-hotel management, they first treat all stains on the laundry. Then, they toss them in a big pot full of a mixture of baking soda, Probiotics laundry powder or solid bar, and cold water. The towels are then boiled for around half an hour, wrung out, and thrown into the laundry machine.

Even if you wash your sheets weekly, white sheets often yellow over time. If you want to renew your sheets and have crisp, white bedding, keep reading to learn how to make your sheets white again.

Whitening Ingredients

- Lemon
- Vinegar and Baking Soda
- Borax
- Hydrogen Peroxide

Most white sheets naturally start turning yellow or dingy over time due to the sweat and body oils that are released while you sleep and or the hard water prevalent in our area with lots of limestone content. While the brightness of white sheets can be prolonged with regular washing, you can also turn to these methods to help make your sheets white again.

Step 1: Lemon

Lemon contains citric acid, a natural bleaching agent, which helps brighten your sheets without the use of chemicals. Using lemon juice is an all-natural method that’ll leave a pleasant citrus smell on your sheets. There are two methods for using lemon to whiten yellowed sheets:

• Method one:
  a. Juice one lemon and pour it into the washing machine with your regular Probiotics detergent or Probiotics laundry liquid.
  b. Machine wash as usual.

• Method two:
  a. Mix 125 ml of lemon juice with 4 liters of hot water. (Note: this method should not be used with silk sheets)
  b. Soak the sheets in the solution for at least an hour and up to overnight.
  c. Remove the sheets and machine wash as usual.

Step 2:

A NAME

Dearest friends Elba got Anandi in 1980 for her Birthday from Champaklal.

He wrote it on a paper, he was already on Mauna. I did not know what the meaning was. When I asked him, he wrote;

“a feminin of Ananda “

“I said thanks, but I’m not going to use it, it is too much! But we have started a Kids ‘Community in Utilite and the kids started chanting the name… and all my cells were answering with Joy!…” and I decided to use it…

A few years back quite a few more girls started having Anandi, an Aurovillian, an Indian, a Spanish, a Chinese… and I started feeling that was a kind of too much, and confusing sometimes, and I add “a” at the end. And I was Anandi-a in Auronet. “A” stands for Auroville, Argentina, and America. I felt OK.

And one day I found a Mapuche word (from Patagonia) that touched me: ayün. Not only because start with “a”, but also for the meaning: love, but semantically means: love as a veil be taken out. I was feeling that powerfully and decided to add it to my name. And now for this Birthday, 25-11-2021 is officially done.

Within Her Grace

Anandi ayün

**GREEN COLUMN**

Some Good News and Post COP 26

The Rains of 2021

It hasn’t rained that much in one century! (1921) While enjoying Jesse’s and Johnny’s play Tani Illa during long down pours and loud crashing thunder and lightning, we wonder if we have to be careful about what we wish for! Water catchments are overflowing, canyons and dams are brimming, canoeing in the lakes by the dams, catching fish in the river overflow from Alangoupam tank, small rivers coursing through our gardens, muddy slippery roads, often no access to our homes baring walking slip-sliding through knee deep water and mud. Rain gear isn’t waterproof against such deluges, ants and termites, scorpions and other wildlife seek refuge in our homes, little sun and empty batteries, power cuts and WiFi disruptions, the laundry that refuses to dry, gets moldy, little mushrooms grow on it, wet firewood that refuses to catch fire…

Too much of a good thing, but at least the aquifers are replenished. Some rain figures from Tom ( Invocation): who is in daily contact with Charlie ( Aurogreen), Jaap ( Ravena) and others who also measure rainfall.

- From January to May: the Dry Period average is 116 mm, but in 2021 it was 519 mm.
- From June to September: The S/W Monsoon average is 409 mm, but in 2021: 628 mm.
- From September to December: the N/E Monsoon average is 786 mm, but in 2021: 1505 mm!

**Note:** data measured till 26th November. We had plenty of rain after that and another 5 weeks to reach 2021 Annual Rainfall which is already easily double the average!

Controversial Farm Laws repealed

Some good news for the farmers of India. Prime Minister Modi apologised to his countrypeople for the three farm laws over which the government “failed to convince” the farmers. He urged the protesting farmers to return to their homes and start afresh. Farmers had kept up their protest since April 2019: camping with their tractors in front of the New Delhi gates, supported by 200 Farmers Unions from 22 states. The government will repeal the laws in the upcoming winter session of Parliament. The decision comes just ahead of elections in Punjab and Uttar Pradesh, where the agitation found popular support. The ruling party will now have to overcome the anti-farmer perception battle in the forthcoming elections. Maybe the time for a radical ecological food systems policy has come?

India’s pledges at the end of COP 26

The Indian PM surprised observers within and outside India with the following ambitious and what at this point appear to be unconditional pledges on India’s decarbonisation during his speech at COP26:

- Increase non-fossil energy capacity to 500 gigawatts by 2030.
- Meet 50% of energy requirements from renewable energy by 2030.
- Reduce the total projected carbon emissions by 1 billion tonnes by 2030.
- Reduce the carbon intensity of the economy by 45%.
- Achieve net zero carbon by 2070.

Many environmentalists hailed these five pledges (“Pan-chamrit”) as it is expected to put India on a firm path towards decarbonisation. For commercial entities betting on green investments to pay-off, the announcements offer certainty that government policy will protect their returns, though the assumption at this point is that these are aspirational, non-binding pledges.

Food and love are two of the most vital forms of human nourishment, it is a natural combination, because through cooking we give. For this end, it is very important that we carefully choose the best organic ingredients, as much as possible coming from Serendipity’s vegetable garden or Auroville farms, and we surely don’t want to go for industrial and processed ingredients. Because this this is food to be made with love for the body and soul of our beloved companions.

Hatha Yoga with Bala
Every Thursday from 7.30 to 8.45, drop in class.
In our yoga class we will concentrate on Asanas, Pranayama and Meditation. These are dynamic classes in which we will use the principles of Hatha and Vinyasa practices, concentrating on movement and flow. Every class is organic and the structure of the session will evolve depending on the group of practitioners in that particular class. We will strengthen & relax each and every part of our body: mainly core, hips etc.

Qi Gong with Lhamo
Every Tuesday and Friday from 7.30 to 8.45, drop in class.
Qi Gong can be described as a mind-body-spirit practice that improves one’s mental and physical health by integrating posture, movement, breathing technique, self-massage, sound, and focused intent. Specifically, this form of gentle exercise is composed of movements that are repeated a number of times, often stretching the body, increasing fluid movement (blood, synovial and lymph) and building awareness of how the body moves through space.

Ayurvedic & Stone Massage with Simona
On appointment only (+91 9489511648)
The specialty of this massage is that, it takes up the traditional concepts of Ayurveda and marma (vital points) therapy along with modern anatomy and physiology. Prime aim of this massage is to provide health or rejuvenation thanks also to the healing qualities of the oil helping the skin to perform its diverse functions efficiently. A technique with hot stones can also be applied, which give further release along marma points.

It’s a safe and natural method of healing that gently restore the balance between mind and body by casting out negative emotions which interfere with the equilibrium of the being as a whole.

Small Children (0-6) Chinese Massage with Lhamo
On appointment only (+91 9565524237)
A very interesting way of looking at small children’s health and well being. It is a way to cure infants’ daily problems (cold, digestive functions, fever, cough, etc.) and increase the immune system without medicine. The first mention of children’s massage dates back to 1000 BC. Nowadays, it is very popular in China. It works through very soft massage using different acupuncture points than adults. It is an empowering tool for parents to deal with their kids’ daily ailments. It is very effective for newly born babies and suitable for children up to 6 years old.

Conscious Life Counselling with Stefania

This exploration offers a flexible and safe framework for introspection and self-discovery, which aims at personal and spiritual growth. Facial Acupuncture and Massage with Lhamo
On appointment only (+91 9565524237)
Facial acupuncture works on the principle that in the face there is a holographic miniaturization system covering the whole human body. The theory and techniques of the facial massage comes from facial acupuncture and it is useful for people who are more sensitive and feel uncomfortable with the needles. Through massaging the face, neck, head and using acupressure, the whole body is treated and supported.

Gua Sha (Chinese Detox Scrub) with Lhamo
On appointment only (+91 9565524237)
This is one of China’s oldest treatments. The practitioner uses a tool like a flat piece of jade to scrub the skin to help release blocks, stagnant blood, energy and restore a natural flow. When the toxins in the deep layers of the body reach the surface through scraping, they get more easily released from the body. This treatment is also suitable for healthy people to detoxify, to purify and improve the metabolism of the whole body.

Head & Shouldres Marma Massage with Bala
On appointment only (+91 9892699804)
Marma points means “vital points that hold life force energy”. In this massage the practitioner uses fingers and hands to press (isometric / constant pressure ) the specific point in head, face,neck and shoulders. This massage is based on the principles of Ayurvedic and various martial art traditions. Marma massage can help in relieving deep-seated tensions and improving circulation and energy flow.

Hypnotherapy with Lhamo
On appointment only (+91 9565524237)
In modern hypnosis, the emphasis is put on our own relationship to our own creative unconscious. There are many different aspects about our own inner life. And there are parts that don’t have a positive appearance. But in hypnosis, we can turn them into positive possibilities and let them teach us how to discover their positive meaning.

Shiatsu Massage with Sara and Simona
On appointment only (+91 9443617308 and +91 9489511648)

It involves the uses of kneading, pressing, soothing, tapping, and stretching techniques and is performed without oils through light, comfortable clothing.

2. Harmony, Music Theory & Counterpoint, aims at giving us the tools to understand how different types of music are built, and also help us to create our own musical compositions.

These are courses loosely based on international Music Conservatory Programmes as well as musical higher studies, but flexible to our own informal setting, and adapted to suit our different levels.

Open to all. Regular attendance is encouraged.

Limited places. Basic to advanced levels.

CHILD PORTRAIT

I (Roof Studio/Auroville Art Service) offer to draw your baby so that you can keep the memory of his/her first smile forever.

My mission is to bring attention to children and their upbringing by my drawing/painting of them. “How to Bring Up a Child?” is an essential question to our society. I do not provide an answer but hope to trigger a public discussion about it. My values are gratitude, humbleness and love.

My work is my impressions of the happy child, not a photo-like picture. I purposely chose smiling kids of an early age as they smile only when they are really happy. I enjoy my work and if you send me a photo of your child between 6 – 18 months of age, I will send you back for free a photo of my work. I will keep the right to exhibit the picture publicly and the copyright to it. I work with full confidentiality – no information about you or your baby will ever be made public. The photo should have some shadows, no flat light please. You could hold your baby so naturally it will be create shadow from the side of you. And a smile needs to be there.

CHINESE FIRE CUPPING AND MOXIBUSTION THERAPY

Fire cupping is an ancient form of therapy of China, in which a local suction is created on the skin by introducing the fire to the inside of the glass or bamboo cups, fire cupping is one of the best deep-tissue therapies.

Moxibustion has been used in China, Japan and Korea for thousands of years. Treatment is done by burning a Chinese medicinal herb, called Moxa or Mugwort, over a specific acupuncture point. The radiant heat stimulates the points and spread its potent effect to the whole body along the channels.

Both therapies are based on traditional Chinese meridian system and can release one’s accumulated toxin from deep inside the body, activate one’s blood circulation to dissipate blood stasis as well as improves one’s immune system, with good efficiency in acute and chronic internal organ disorders such as pain, stiffness, fever, chill, cough, wheeze, nausea, etc…

Chun is an Aurovillian from China, a certified physiotherapist, he has been enthusiastic about non-drug therapeutics since early age and experienced in Acupressure, Gua Sha, Fire cupping and Moxibustion therapies.

SOUND JOURNEY

SVARAM

SOUND JOURNEY

Every Wednesday
5:30 – 6:30 pm Unity Pavilion
August 2021 till March 2022
Goddess, the Supreme Mother. As soon as he glimpses soul-stuff. There is revealed to him the sole omnipotent the source of all finite life. Here all is soul or made of sheer delight, he enters into the realm of But by a mysterious sound and hidden call to unforeseen knows and is one with the cosmic whole.

Then journeying where all are one. That is the goal he is aiming for. violate Truth, forever united on the wide spiritual height radiant children of Eternity dwell in the immutable and in-rate identity in order to find its own soul in the world’s cept their beauty and their greatness but does not remain free from all adverse circumstances, that world lives in a jewel-rhythm of the laughter of God and universal love. He at last finds calm and heavenly rest and his wounds are healed by the embraces of pure blissful divine Energies. Entering The Heavens Of The Ideal, he is able to move freely through all the kingdoms of the Ideal Mind. He accepts their beauty and their greatness but does not remain in any of them. It is that none is willing to sacrifice its separate identity in order to find its own soul in the world’s single soul. He passes towards a diviner sphere where the radiant children of Eternity dwell in the immutable and in-violate Truth, forever united on the wide spiritual height where all are one. That is the goal he is aiming for.

Then journeying In The Self Of Mind Aswapati finds himself alone. He feels that he can remain forever in this ultimate Self and ultimate Silence. His soul is at peace, it knows and is one with the cosmic whole. But by a mysterious sound and hidden call to unforeseen delight, he enters into the realm of The World Soul. This is the source of all finite life. Here all is soul or made of sheer soul-stuff. There is revealed to him the sole omnipotent Goddess, the Supreme Mother. As soon as he glimpses her, his spirit is made a vessel of her force. He is overwhelmed with Bliss; his soul emits a cry of adoration and surrender as he falls unconscious at her feet.

On the last step to the supernal birth, in The Kingdoms Of The Greater Knowledge Aswapati walks along a narrow edge of extinction and thrills with the presence of the Ineffable. He is able to scan the secrets of the Overmind and the rapture of the Oversoul. Living on the borders of the Supramental Empire of the Sun, he links creation to the Eternal’s sphere.

A portion of that majesty he was made. (p.300) His will takes up the reins of cosmic Force. He has reached the summit of The World-Stair.

Aswapati’s journey and experiences in The Traveller of the Worlds in Savitri, from the base of Matter into the unknowable summits of the Spirit, is Sri Aurobindo’s own journey and a reflection of his own spiritual labour.

A meditative film of Huta’s paintings illustrating passages from Savitri read by The Mother and accompanied by her own organ music which can connect us to the Divine Presence within and lead us towards the spiritual truth and the New Consciousness.

At the Savitri Bhavan website in Invocation #50 one can read more about the contents of the Cantos.

Even the most sublime levels of Life do not provide the solution to find a Power which enables life on earth to become divine. With a calm mind and detached heart, Aswapati turns his gaze away from the visible face of Nature towards the invisible vastnesses of the infinity from which our universe has been born. The Descent Into Night enables him to see the evil lurking at the roots of Life. He becomes aware of a hidden Power which seems to be giving birth to the world and at the same time destroying it. The hidden heart of Night is a spiritless Infinity, denying Truth and wanting to abolish God. There is no Light, no divine Soul there. Carefully guarding the flame of his divine Spirit, Aswapati penetrates to the last locked subconscious’s floor, where he finds the secret key of Nature’s change. Hell dissolves. Soul lights up the conscious body; Matter and Spirit mingle and become one.

Immediately Aswapati’s being is projected into The Paradise Of The Life-Gods. Immersed in Light, perpetually divine, free from all adverse circumstances, that world lives in a jewel-rhythm of the laughter of God and universal love. He at last finds calm and heavenly rest and his wounds are healed by the embraces of pure blissful divine Energies. Entering The Heavens Of The Ideal, he is able to move freely through all the kingdoms of the Ideal Mind. He accepts their beauty and their greatness but does not remain in any of them. It is that none is willing to sacrifice its separate identity in order to find its own soul in the world’s single soul. He passes towards a diviner sphere where the radiant children of Eternity dwell in the immutable and in-violate Truth, forever united on the wide spiritual height where all are one. That is the goal he is aiming for.

On the last step to the supernal birth, in The Kingdoms Of The Greater Knowledge Aswapati walks along a narrow edge of extinction and thrills with the presence of the Ineffable. He is able to scan the secrets of the Overmind and bear the rapture of the Oversoul. Living on the borders of the Supramental Empire of the Sun, he links creation to the Eternal’s sphere.
