He passes in his departure from this world to the physical Self; he passes to the Self of life; he passes to the Self of mind; he passes to the Self of knowledge; he passes to the Self of bliss; he moves through these worlds at will.

Taittiriya Upanishad

The Ponder Corner

A spiritual evolution, an evolution of consciousness in Matter in a constant developing self-formation till the form can reveal the indwelling spirit, is then the keynote, the central significant motive of the terrestrial existence.

“(A visitor has written to Mother about her difficulties, saying she is the victim of a “collective karma.”)

Mother: Those karma stories....

I often wonder, very often, whether it helps people to know their karma. I don’t think it does.

I mean, if they themselves discover the experiences they had in their past life, then it’s part of a whole inner, psychic awakening, and very useful. But if some guru or other comes along and tells you, “Here, this was your karma....” I don’t think it’s useful, to put it mildly!

If you discover the line of a former life on your own, that’s different; it’s part of an inner, psychic awakening, and it’s very good. But I don’t think it’s helpful when someone sees something and comes and tells you, “You know, you have been this, you have done that....” I feel it makes things worse instead of better – it puts you back in touch with things you were in the process of eliminating.

(silence)

This woman... a “collective karma”! What rubbish – absolute humbug.

It may be true for some people, but not for her. If I hadn’t seen her I might have been intrigued and tried to find out, but.... A collective karma.... Of course, there are all the links you have with people you’ve known in past lives; in that sense, yes, there is a collective karma! But really, people use such big words and big ideas for things that are actually quite natural.

Satprem: Yet I found it helpful to have some understanding of what happened in my other lives.

Mother: Because you were here.

Because before you were told about your karma, I had already seen certain things about you and was trying to set you free – not from the thing itself, but from the tendency that remained in your nature. That, yes.

But Sujata, for example, was completely, COMPLETELY free of the whole... (what shall I say?) what could be called the unhappy aspect of her karma – completely free. For I know the people around me and what they carry with them very well, and there was nothing – just one thing remained, the one part that was rather constructive, so I had left that totally intact. And when the events of her past life were revealed to her, I took the greatest care to destroy the revelation as it was being given. And I did it ruthlessly. You see, it was like dumping a load of mud on someone completely unsullied, and I didn’t let it happen (I couldn’t stop what entered through her physical brain, but inwardly... I utterly annihilated it).

The only thing I left untouched was the constructive part of the bond that had existed between you two, and so when she met you, she.... That’s all I left, because it was good, pure, lovely – it was good. But all the rest.... And you saw how strongly I protested when I was told she had committed suicide. “No, no, no!” I said; even if somebody with perfect knowledge were to tell me so, I’d still say NO.

She is untainted by all that – pure – and I won’t stand for someone pure to be soiled. She was so much my child that after her death everything was carefully cleansed, arranged, put back in place, organized, purified. So she returned unblemished and pure, and I don’t want her soiled.

You see, a grace is actually working to drive those karmas away – sometimes far, far away – and it’s no good to call them back. I have had dozens of similar examples. In some instances, my work has been thoroughly mucked up, and I don’t like that.

It happened again recently: K.’s sister came because she had lost her son – it had just occurred and he was still here (he hadn’t left yet). So I arranged everything, saw to the mother’s condition and so forth; I arranged it all nicely, very carefully keeping the son here and telling his mother he would shortly return in some family member. Everything was well organized. But naturally that was against “the rules” – I make a habit of doing everything against the rules, otherwise there would be no point in my being here; the rules could just go on and on! So they went to see X. They shouldn’t have said anything, but they did. And that was that – all sorts of things were said and my work was completely mucked up. So now it’s all going according to “rule,” because that’s the way it “has to” be.... I am not bothering with it any more.

Myself, I have learned a lot of rules I didn’t know before (thank God!) – the divine Grace saved me from that whole hodgepodge of rules about how this happens and how that can’t happen and how that must happen and how.... Oh, good Lord!... I saw things very simply, without a single rule in my brain, and so I did them just as simply, with no rules in my head – it worked very, very well, I didn’t run into any trouble. Things worked out quite naturally and simply. And if I was told, “That can’t be” – “Well, sorry,” I would say, “but it’s already done.” That “can’t be”... Sometimes it can!

CALL FOR GRANT PROPOSALS
SDZ Funding in 2022

Last date to submit is Saturday, 30 April 2022

Project Coordination Group (PCG) will be meeting to review grant proposals for possible funding by Stichting de Zaaijer. The last date to submit proposals for this call is Saturday, 30 April 2022. You are welcome to submit earlier or send us a draft version of your proposal for comment prior to the due date. (If you plan to submit a proposal, please carefully read this full announcement to the end!) All documents related to this purpose are to be submitted in the prescribed forms as attachments, emailed to pcg@auroville.org.in.

Please note that in case your proposal is not ready by this date, there will be two other calls for proposals for SDZ announced later this year.

The Project Coordination Group will check whether proposals fall within the SDZ funding criteria and forward those that do to the SDZ Board for final selection and grant allocation.

Stichting de Zaaijer welcomes project proposals for:

- research studies in the fields of sociology, economy, psychology and inner development;
- exploratory (research) studies into the relations with the world outside Auroville, in particular with the villages (and villagers) surrounding Auroville, as well as proposals for initiatives that seek to contribute to strengthening these relations;
- initiatives that seek to enhance the efficient co-operation of Aurovilians with the aim of making full use of the existing potential in Auroville;
- studies exploring a sustainable future for Auroville and initiatives contributing to such a future;
- initiatives requiring seed money (micro-projects) for innovative and informal education and training, women’s development, outreach as well as proposals prepared by youth.

Please note that funds are generally not available for infrastructure, buildings or transport. Requests for equipment will be given priority if they contribute to the sustainability and development of Auroville. Stichting De Zaaijer has also indicated a preference for funding projects where the maintenance of Aurovilians is either provided by Auroville or from a source other than SDZ grants.

- A grant application form and budget request spreadsheet are available on request from pcg@auroville.org.in, or may be downloaded from the same announcement on Auronet.
- NB If you have already received funding for a project through the Project Coordination Group please send in a progress report/status update (if the project is ongoing) or final report (if the project has been completed or all funds have been utilized) before making an application for a new grant.
- Please note that if you are submitting a project that has anything to do with Auroville or Auroville Outreach schools, or, students of any individual classes, your project is to be reviewed by all concerned School Boards prior to the Project Coordination Group review. (Please contact all individual schools before submitting your proposal to the School Boards.) Therefore, it is important that all the relevant bodies (i.e. schools, teachers, school boards, etc.) are aware of your project and support it. In this way, the Project Coordination Group can more easily recommend a project for funding knowing it will have the support of schools and thereby have a greater impact on the beneficiaries of the project.

- For more information or assistance please write to pcg@auroville.org.in

The last date for submitting proposals for this call is Saturday, 30 April 2022. Please submit earlier if possible.

- NB There will be two other opportunities to submit proposals for funding by Stichting de Zaaijer to be announced later this year.

FOLLOW-UP RA MEETING

In Preparation For A Ra Decision-Making On The Selection Process Proposal

After the first RA meeting of Friday, 28th of January 2022, we would like to invite you to a follow-up Residents’ Assembly Meeting (RAM) that is going to be held by the Residents’ Assembly Service (RAS) on:

Monday, March 28
4:00 – 6:00pm
Unity Pavilion

This Selection Process proposal will be put out to the community for a decision.

Please note that there have been many feedbacks requesting the addition of a way to remove members of working groups. The SPRTF consulted with the AV Council, and understood that it was under consideration on their side. Moreover the SPRTF chose not to include a “de-selection” process in its proposal at this stage as, amongst other reasons, that it could potentially delay the adoption of the new selection process. In any case, the follow-up Residents’ Assembly Meeting is a good place for the community to discuss this topic and find collectively a way forward.

Tentative Agenda

- Welcome & Intention, Agenda and Ground rules
- Presentation of an updated version of the RAD proposal (after integrating feedback received from the community)
- Participative space to collaborate on refining the RAD proposal
- Defining & agreeing next steps as per the RAD Policy
- Closing

The meeting will be live streamed by Auroville Radio and the access links will be shared.

We look forward to seeing you there

SRI AUROBINDO NOTED WITH PROPHETIC FORCE
Short extract from the passage in The Adventure of Consciousness that Satprem just read to Mother:

“... In the middle of the First World War, Sri Aurobindo noted with prophetic force: The defeat of Germany... could not of itself kill the spirit then incarnate in Germany; it may well lead merely to a new incarnation of it, perhaps in some other race or empire, and the whole battle would then have to be fought over again. So long as the old gods are alive, the breaking or depression of the body which they animate is a small matter, for they know well how to transmigrate. Germany overthrew the Napoleonic spirit in France in 1813 and broke the remnants of her European leadership in 1870; the same Germany became the incarnation of that which it had overthrown. The phenomenon is easily capable of renewal on a more formidable scale (The Ideal of Human Unity, Cent. Ed., XV. 320). Today we are finding that the old gods know how to transmigrate. Gandhi himself, seeing all those years of nonviolence culminate in the terrible violence that marked India’s partition in 1947, ruefully observed shortly before his death: “The attitude of violence which we have secretly harbored now recoils on us, and makes us fly at each other’s throats when the question of distribution of power arises.... Now that the burden of subjection is lifted, all the forces of evil have come to the surface. "For neither nonviolence nor violence touch upon the root of Evil....”

SURYA & AMPHITHEATRE TEAM

THANK YOU
Dear community members, following the events that occurred in the beginning of December 2021, three RAD petitions have been submitted to the RAS. These three petitions asked for the community to come together on the following topics: (a) pausing development work on the Crown; (b) a vote of no confidence and new selection of the Working Committee; and (c) addressing the ATDC selection / membership situation. The RAD on pausing development work on the Crown ended on the 26th of January 2022, but the two remaining RADs are still to be held.

These were not taken up straight away as there was a large number of pending RAD petitions. How to prioritise these was an issue that the Auroville Council needed to address. They recently held a community poll to prioritise these pending RADs. How to prioritise these topics: (a) pausing development work on the Crown; (b) a vote of no confidence and new selection of the Working Committee; and (c) addressing the ATDC selection / membership situation. The RAD on pausing development work on the Crown ended on the 26th of January 2022, but the two remaining RADs are still to be held.

These were not taken up straight away as there was a large number of pending RAD petitions. How to prioritise these was an issue that the Auroville Council needed to address. They recently held a community poll to prioritise these pending RADs. Since the overwhelming majority of the poll participants have selected the RAD on the Working Committee as their top priority, and this has been considered by the AVC & RAS, the petitioners’ coordination team for this RAD met the RAS to launch the process. Information will be published soon, including translations into Tamil and French.

The full RAD process includes a minimum of 2 meetings in which we, as a community, come together to hear all sides of the issue and gather feedback on the voting options proposed by the petitioners. Since this entails a lot of work, the official petitioner representatives for this RAD (Lakshmi and Sandeep), are supported by a team of coordinators who will assist them and the RAS in preparing the RA Meetings, dealing with feedback integration, etc. This petitioners’ coordination team is composed of two members of the previous team (Dinagar and Suryamayi) as well as two new members (Divya L. and Henrike), and is assisted by additional resource persons.

All members of the petitioners’ coordination team are committed to uphold the RAD process with fairness and transparency. They have offered their support to this process with the intention to foster a healthy functioning of an active Residents’ Assembly, which by extension includes an operational Working Committee.

We hope for a collaborative way forward, and aspir to healing and building trust once more.

In community, Lakshmi and Sandeep (Petitioner representatives), Dinagar, Divya L, Henrike, Suryamayi (Petitioners’ coordination team)

Short overview on the concerns of the petitioners for the RAD petition

“Vote of no confidence in/call for a new selection of the current Working Committee team, given their failure to ‘assist’ and ‘represent’ the Residents’ Assembly as stated in their mandate.”

The Working Committee of the Residents’ Assembly is one of the main organisational bodies of Auroville. According to its mandate, it is supposed to “Represent the Residents’ Assembly in interactions with the Governing Board, International Advisory Council and the Secretary of the Auroville Foundation […].” However, recently some members of the Working Committee have actively rejected and denied the position of the Residents’ Assembly as a decision-making body before the Governing Board and Secretary – while they were chosen by the Residents’ Assembly to represent it.

According to the Auroville Foundation Act 1988, The Residents’ Assembly has the authority to choose members of the Working Committee, and how long they are to serve in this role. The petitioners who have asked for this RAD feel that it is especially important in the present context that the Working Committee represent the Residents’ Assembly before the Governing Board and Secretary of the Auroville Foundation.

Other key issues with the current Working Committee noted by the petitioners are:

The Working Committee did not provide assistance to the Residents’ Assembly to come to an agreement on a divisive topic (the development of the Crown).

The Working Committee did not adequately inform the Governing Board of the views of the Residents’ Assembly.

The Working Committee did not adequately inform the community about the Multiversity proposal nor obtain the agreement of the Residents’ Assembly.

The Working Committee did not deliver a proposed Residents’ Assembly selection process for the ATDC.

Some Working Committee members, despite being present, did not try to prevent or halt violent actions on the Crown in early December 2021.

For these reasons, the petitioners, lacking confidence in members of the Working Committee, have called for these meetings. The Residents’ Assembly is to come together and decide on a way forward towards the constitution of a Working Committee that is able to represent the Residents’ Assembly as we work together towards realising the Mother’s Dream and the Auroville Charter.

More information on each of these issues is in the extensive background document, which will be sent to you by email together with the invitation to the first RA Meeting on this topic.

If you have any questions, please write to us at dec2021rads@auroville.org.in

Kalakendra Art Gallery and Studio

- **Art Studio Residency Program**
  During the month of November and December 2021, Kalakendra in collaboration with Centre d’Art coordinated two artists in residence programs for visiting guest artists: Mr. Pradeep Kumar and Harsha Durugadda who are both established and reputed artists in the Indian and World Contemporary Art Scene. The entire residency program was funded by the Centre d’Art.
  Mr. Pradeep and Harsha researched art production by using the medium of tree wood, creating contemporary sculptures as an art installation for outdoor and indoor exhibitions. The art residency research period for each artist lasted for six weeks followed by a public exhibition at the Centre d’Art of Citadine, Town Hall.
  The inauguration of the newly renovated residency Art Studio took place on 12 January 2022.

- **Kalakendra Art Gallery: Exhibitions**
  The 3rd National Painting Exhibition was organized by the Pondicherry Art Academy President Mr. Shegar and Sridala during the last two weeks of December. It was a successful Group Show of 85 Senior & Upcoming Indian Artists. It was inaugurated by the Auroville Foundation Secretary and the Minister of the Pondicherry Government. The media and press gave a large coverage of this event.

An exhibition in the month of January on the theme of “Spirit of India”: India is a story of unity, diversity, freedom, spirituality, culture and the essence of legend. It is an eclectic ensemble of 13 artists celebrating the spirit of India through diverse viewpoints and philosophy with distinct interpretations.

Art as a journey, different backgrounds, distinct viewpoints, different philosophies, distinct interpretations, numerous conversations, over “chai”, chat and samosas, running late to catch a flight, catching a breath to exchange ideas in planes, taxis, autos, always on the go and finally 10 artists (from Chennai, Auroville, and Pondicherry), as an eclectic ensemble offered to exhibit at Kalakendra.

An exhibition on the theme of Unity in Diversity from 18th February to 18th March. Ms. Sarala invited artists from Auroville and Pondicherry Ashram to participate in the second exhibition, along with a group of artists from Chennai, Kolkata, Bangalore & New Delhi.

Exhibition of Crafts: In parallel, Kalakendra invited Mr. Jannajay Mohanty, representing the Blue Light Studio of Odisha offering Handicrafts, textiles, art objects, ornaments, sculptures and stone-carved statues. This has created a dynamic atmosphere of support and sharing of crafts exhibitions.

MANIFESTATION OF A UNIVERSAL CITY

Dear friends, while we were meditating under the banyan tree of the Matrimandir for Peace in Auroville and on Earth, a particular sensation of an immense and familiar presence came to me to give me this third message which will probably be the last one!

I hesitated to communicate it because of its prophetic character, but in all humility and in my soul and conscience I have finally decided to transmit it to you and to take responsibility for it. After all, it only restates what Mother transmitted to us at the very beginning of Auroville, but this sense of urgency is for me a call to a real individual and collective awareness. It is up to each one of us to feel how this resonates within us and to act in our Soul and consciousness.

With love, Bhagwandas

My children, this is the third message I am delivering to you at the beginning of this year and it will be the last one before the great changes. These great changes that I had already announced a long time ago, are about to be realized in your physical matter with many powerful interactions in other dimensions of consciousness to which you are also connected.

I want to remind you first of all of the immense importance of your action and of your inner and outer commitments so that this transition takes place within each of you and on the entire planet. A “uncovering” of all that you are and that you have manifested, such is the reality of this consciousness that is going to express itself and that Sri Aurobindo and myself have named “Supramental”. It is therefore an immense moment, of considerable importance, and one for which you must prepare yourselves.

The events that took place in Auroville and that have divided your community, as well as those that are taking place in the Ukraine at the moment and all over the world, are the first signs of this and you will have to put into practice with courage and sincerity, the recommendations that I have given you in my previous messages.

Yes, my City descends, for it already exists in another plane”, this creation that the people of the Earth must welcome; in particular you who were called on this Indian Earth to accomplish this Divine project.

This manifestation of a Universal City, carried by many spiritual dimensions, will be revealed and embodied, throughout its construction, as was the construction of its Soul, the Matrimandir. All this I have told you and many other things still, essential to your inner preparation for this great moment that you are going to live.

What you have been experiencing lately and what the Earth is experiencing is like that moment of darkness just before the Dawn whose role is to propel you into a great “letting go”, an intense “Surrender” to the Divine Will which can be expressed in these words: “What Thou wilt, Lord, what Thou wilt...”, a mantra that will carry you safely along the path and accomplishment of great achievements. It will be your safest guide and your greatest protection, as it was for me when I was in my physical body.

Go beyond all judgments, opinions, beliefs that oppose you unnecessarily and find yourselves all in the wonderful sharing of the freedom of the Soul and the love of your Divinity. It is in this privileged space that you will be able to welcome my City and build the first foundations of a Brotherly Society working for Human Unity in accordance with the great Universal and Divine laws.

My children, take note of this crucial moment, as important for you as for the Earth.

Love one another as I love you and in a spirit of fraternal collaboration, put all of yourselves to work to embody it.

*Mother must be referring to a revelation she made in 1970/71: “Auroville already exists in the subtle physical world and all that is needed is a little bit of good soil to receive it”.

THE UKRAINE CRISIS AND AGRICULTURE

The terrible war that is unleashed on Ukraine causes unimaginable destruction of the country and its people. It also also has great repercussions that echo all over the world; Ukraine is one of the world’s largest granaries, so with its agriculture coming to a standstill the food industry faces itself to chain disruptions of grains and sunflower oil, causing turmoil, with price rises and possibly famine and more war.

Ukraine has the most fertile soil in the world called Chernozem (black earth) built up over thousands of years from loess (fine sand with lots of minerals) by generations of grazing herds and grasses adding organic matter through their roots. Its spongy texture holds water from the generous rivers criss-crossing the country. Ukraine has been the breadbasket for Europe since antiquity. Ukraine is a bit larger than France, but it’s one of the world’s largest grain exporters.

Following the collapse of the Soviet Union, Ukraine became not just a breadbasket for the region, but for the world. In addition, the Black Sea became a critical trading route for agricultural products.

The ongoing Ukrainian crisis is threatening the availability of food and edible oil in countries that rely heavily on imports. After just a few days of conflict, the price of sunflower oil from Ukraine shot up from US$ 1,480 per metric tonne to $1,950. Grain prices soared by 50 percent in the first two weeks of the conflict, according to Matin Qaim, professor of agricultural economics at the University of Bonn. He explained that as traders try to substitute crops like wheat with others like rice or barley, global commodity prices are rising across the board.

Experts believe that the ongoing war could affect the upcoming harvesting cycle as Russia continues bombarding major ports, grain storage silos, and agricultural land. Add to this stricter sanctions on Russia limiting access to fertilizers, the closing of trading routes through the Sea of Azov and the Black Sea, plus delay in spring planting of soybeans and sunflowers...

Sunflowers are sown in April and harvested in September. Tensions and military action in agricultural areas pose risks to the supply and demand of the next growing cycle. With the suspension of trading and the absence of sunflower seeds, most food oil factories in Ukraine are closed.

Wheat and other grains. Disruption related to the pandemic and droughts and floods caused by the climate crisis had already pushed up the prices for groceries and food staples across the globe. This led to a rapid increase in malnourishment in many low-income food-importing countries, especially in Africa. The closing of export facilities has led to fertilizer scarcity, which is directly jeopardizing global production of wheat- and other staple grains. According to the United Nations’ World Food Programme, the world is facing catastrophic hunger, with 1 in 10 humans not eating enough, and humanitarian organizations failing to provide food to troubled countries. It is said food prices could increase by 20%—risking further conflict in food-vulnerable regions.

The interconnected web of crises has highlighted the importance of food security, both as a cause and effect of conflict. Measures are being taken to prevent the disruption of grain supplies and avoid food being turned into a weapon of war. NATO and its allies may try to stabilize supplies and prioritize food security in countries that depend on Ukraine and Russia.

According to analysts at POLITICO the top five impacts the war in Ukraine is having on the world food system are:

1. Soaring food prices, with grains affecting all other foods.
2. Fears of famine. Especially in regions relying on food aid.
3. Rising protectionism; governments that cannot feed their populations shut the borders, stockpile food and stop exporting. Fears about hoarding and trade barriers can be self-fulfilling prophecies.

4 – 16 April, Monday to Friday, 5 to 7pm
Auroville Youth Center
YouthLink is proud to announce a Thooya Tamil course in the first two weeks of April. Thooya Tamil is the Proper form of Tamil, the base of all the other colloquial Tamil which is used across Tamil Nadu today. Each region has widely varying dialects which makes cross-regional verbal communications complicated, however everything from Chennai to Kanyakumari is written in Thuya Tamil, and all official channels communicate in Thooya. Learning Thooya Tamil gives the learner access to the culture and intricacies on a whole other level, and is then able to listen to audio books, hear lectures, know parliamentary issues, listen to the news and radio as well as understand politics/scientific studies and other socio economic studies, even if they can’t read and write. While learning Thooya Tamil, we aim to also gain an understanding of Tamil Nadu and its’ rich ancient culture of which the first recorded documents dates back to 300 BC. This course will take place in the Auroville Youth Center, 4 to 16 April, Monday to Friday 5 to 7pm, and will be facilitated by Sandeep from Fertile. To sign up please follow the link or scan the code on our poster!

4. Sunflower oil shutdown and possible return to palm oil. One issue that needs to be tackled is the large number of products with ‘No Palm Oil’ claims. Brands would need to explain to their consumers their return to palm oil after taking years to get it out of their supply chains.

5. Pressure on Green Sustainable Agriculture policies. The European Commission is considering a proposal to temporarily scrap the requirement to leave a chunk of farmland out of production to help boost nature protection, and instead use it to grow animal feed. In the USA similar proposals are considered. Similar dynamics can be seen in the energy sector. Both point to risks of overdependence on globalized trade, and the imperative to develop regional resilient food and energy systems.

Woga (Yoga in Water) 1 & 2 with Dariya
Wednesday 30 & Thursday 31 March 2022
8am – 5pm (lunch included)

Yoga in water is based on classic yoga poses and stretches, modified for standing in pool water, which is waist-to-chest high. Sessions are structured like their yoga equivalents on land: breathing, warm-up exercises, a series of poses, and a relaxation period. The difference is that you are in a warm water pool (35°C).

The substantial decrease of gravity in warm water allows greater ease of movement, unblocks articulations, lengthens & melts muscles, and removes negative tensions, thereby preventing stress, insomnia and anxiety.

Focus of Woga 1 & 2 is Hatha Yoga (asanas in standing position, on the wall, in floating position), Pranayama and meditation.

Didactic material and certificate are given upon completion of the course. No previous experience required (also no need to be able to swim!)

KaHuna Massage Training with Claudia & Sang
• Basic Course: Wednesday 6 – Sunday 10 April, 50 hours
• Intermediate Course: Wednesday 13 – Sunday 17 April, 50 hours
• 8am – 8pm (lunch & snacks included)

KaHuna is an ancient massage technique, which originated in the South Pacific. KaHuna body workers use their hands, as extension of the heart, as well as forearms and elbows in long fluid strokes, while performing traditional dance steps. Dance work or hula movements, combined with the breath work of the practitioner are also important and form an integral aspect of KaHuna. The movements are important to assist the energy flow both within the practitioner and the recipient.

The training consists of two 5-day courses during which you’ll learn the magic of KaHuna in the beautiful surroundings of the Quiet Healing Center. The basic course includes Meditation and Yoga, Chantings and Prayers, Huna philosophy, traditional Hula dance steps, and lots and lots of massages.

The intermediate course is a continuation of KaHuna Basic. We’ll focus on new techniques such as Polynesian floor work, under-body work, deepening of the Huna philosophy, and much more.

You can attend only the basic course, if you are not able to join both!

Residential Retreat:
Liquid Flow Essence with Dariya & Daniel
Friday 8 – Thursday 14 April

Starts on first day at 8:45am and ends on last day at 6pm
Prerequisite: Watsu Basic & OBA/Liquid Flow Basic

Liquid Flow is an aquatic bodywork modality given in a warm water pool (ideally 35°C). Developed at the Quiet Healing Center, Liquid Flow is inspired and based on the forms and qualities of Watsu, OBA, Healing Dance, and WaterDance.

This intense course with the main Liquid Flow sequence is for students of different aquatic bodywork modalities, who wish to dive deeper into their practice. In combination with practices on land, you will experience the profound effects of this powerful, yet softening, water work. Liquid Flow Essence is the favorite elective of many students. Inspired by different aquatic bodywork modalities, it offers a wonderful new sequence of essential mobilization possibilities in a flow with ease and continuity. Together with a deepening presence and unconditional holding, this course improves your therapeutic work and leads towards the essence of any aquatic bodywork: being deeply in touch with one’s essence, and experiencing a sense of timelessness and connection to ALL. To make it an even deeper experience, this course is exceptionally offered as a residential retreat, so that all participants will stay on the premises without needing to leave the center during those 7 days.

In fact, microscopic creatures play a more powerful role than we know: These life forms impact our health, our bodies. In fact, microscopic creatures play a more powerful role than we know: These life forms impact our health, our life expectancy, our physique and even our behavior. The film renders these hidden worlds visible with the help of special effects: Combining cinematic electron microscopy with a super macro film technique. The documentary explains cutting-edge scientific findings, by turns surprising, enlightening and amazing. It raises questions about who we are, and how we exist in the unexplored, complex ecosystems that help constitute us. We are born 100% human, but will die 90% microbial. The film takes the viewer on a unique microscopic safari, where we encounter some of the myriad creatures that live, thrive, compete, feed, are born and die on or inside our bodies. In fact, microscopic creatures play a more powerful role than we know: These life forms impact our health, our life expectancy, our physique and even our behavior. The film renders these hidden worlds visible with the help of special effects: Combining cinematic electron microscopy with a super macro film technique. The documentary explains cutting-edge scientific findings, by turns surprising, enlightening and amazing. It raises questions about who we are, and how we exist in the unexplored, complex ecosystems that help constitute us. We are born 100% human, but will die 90% microbial. Between these two points in our lives lies the unexplored terrain of ‘Life on Us’.

MEDITATIONS ON SAVITRI, BOOK 1

The Symbol Dawn
The Destined Meeting Place, Satyavan and Satyavan and Savitri. Duration: 40min.

In ’The Symbol Dawn’ Sri Aurobindo poetically describes the time when the hour of manifestation had not yet arrived and the creation due to the separation of the first emanations from their Origin remained inconscient. But even in the darkest Unconsciousness the Divine Origin had an urge to wake up into existence: It was the hour before the Gods awake… /Then something in the inscrutable darkness stirred; /A nameless movement, an unthought idea/ Insistent, dissatisfied, without an aim, /Something that wished but knew not how to be, /Teased the Inconscience to wake Ignorance. /Savitri, p.1-2)

Perpetually the Divine Avatar comes down upon earth to wake it up to the inner Consciousness. The Rays of Knowledge, of Light, of Truth descended on earth and were often poorly received so that they withdrew. This happened many times before Knowledge, Light and Truth could stay in this world for even a short time. But finally, there is a response — something seems ready.

Dawn built her aura of magnificent hues /And buried its seed of grandeur in the hours. /An instant’s visitor the godhead shone... /A Form from far beatitudes seemed to near. /Ambassadress twixt eternity and change, /The omniscient Goddess leaned across the breadths /That wrap the fat ed journeyings of the stars /And saw the spaces ready for /Then, thoughtful, went to her immortal work. (Savitri, p.4)

Savitri, the Divine incarnation, comes from above and brings special gifts to transform the world and make it ready to receive the Higher Light and Power. The proud and conscious wideness and the bliss /She had brought with her into the human form, /The calm delight that weds one soul to all, /The key to the flaming doors of ecstasy. (Savitri, p.6)

Savitri does not share in the smallness of humanity. And the earth, the world is not yet ready to manifest the Divine in its purity, the Divine gets veiled, hidden by the ordinary form. Only step by step, the world grows towards its realisation. And Savitri knows that she must conquer Death and she is preparing herself for that. Amid the trivial sounds, the unchanging scene /Her soul arose confronting Time and Fate. /Immobile in herself, she gathered force. /This was the day when Savitavan must die. (Savitri, p.10)

This film is a sensitive version of Meditations on Savitri, Book 1, Canto 1: The Symbol Dawn – with wording from Sri Aurobindo’s revelatory epic poem Savitri read by the Mother, accompanied by Her own organ music and paintings by Huta done under the guidance of and with the inspiration from the Mother. All passages from Savitri are subtitled.

The printed version of Meditations on Savitri is available at Savitri Bhavan and the films can now be seen at the Savitri Bhavan website.
