For as in us, so in the atom, the metal, the plant, in every form of material Nature, in every energy of material Nature, there is, we know, a secret soul, a secret will, a secret intelligence at work, other than the mute self-oblivious form, the Conscient – conscient even in unconscious things – of the Upanishad, without whose presence and informing conscious-force or Tapas no work of Nature could be done.

The Life Divine – Exclusive Concentration and the Ignorance

The earliest formula of Wisdom promises to be its last – God, Light, Freedom, Immortality. The Proclamation of Truth is Fearless.

From the kindled fire of Energy of Consciousness Truth was born and the Law of Truth; from that the Night, from the Night the flowing ocean of being. Rig Veda

The Religion of Humanity

“In fifty years the whole world, all the receptive section of humanity (I am not saying intellectual, I am saying receptive), all the receptive section of the world will be embraced – not “embraced”: ABSORBED in the power of Sri Aurobindo’s thought.

Those who are already have the good fortune of being the first ones, that’s all.”

“The nations of the world legitimize that destructive madness of the arms race by saying it’s a way to prevent destruction through fear – that’s futile. As an argument, it’s futile, but that’s the way they think. It’s part of that same destruction through fear – that’s futile. As an argument, it’s a ploy (it’s not a “ploy,” it’s a means – between ploy and device), a ploy (it’s not a “ploy,” it’s a means – between ploy and device) to urge the human race on towards its evolutionary goal. And for that, we must catch hold of the Divine: it’s a means of catching hold of the Divine. For there is nothing – nothing, nothing exists from the point of view of Secur-

RESIGNATION OF VERENA FROM RAS

Funds and Assets Management Committee (FAMC)

12 April 2022 update to the Governing Board (59th meeting)

Action points related to finance and economy and their respective updates

1. Simplify the governance and organisation structures (trusts, units, activities and committees). The first meeting of the Organisation and Governance committee constituted by the Governing Board was scheduled for Friday 2 April, to which two FAMC members were invited to discuss this topic. This meeting had to be postponed and we await rescheduling.

2. Integrated common accounting systems to be implemented for more effective and transparent financial management. This is in the process of being implemented. At present the team is addressing connectivity of the various accounting offices to the server, defining roles and permissions for accessing data and learning how to do automated accounts consolidation through the centralized Tally.

3. Preparation of an annual Auroville budget that includes all resources and all needs. The Budget Coordination Committee (BCC) has completed a Community Budgeting Process exercise for the first time this year. This process may be scalable to explore and prepare an all resources and all needs budget. Resource persons are currently being identified to drive this exercise.

4. Preparation of a medium and long-term economy plan including financial plans of the income-generating units of Auroville. There is no current progress on this topic to report.

5. Enhance Auroville food production to meet the needs of Auroville. A subgroup (Allan, Nidhin, Avinash, Fred) has been formed to review food production and coordination between Auroville farms, outlets and eateries. Soon they will present a pilot proposal as well as a proposal to form a new Food Group for coordinating the production and utilization of produce in Auroville.

6. Use some of the outlying lands [see number 11 too] of Auroville for income generation through joint ventures or ventures in which Auroville has a passive stake. Proposals have been made in identified key areas (Kuilapalayam, Felicity area, beach areas, etc.) but we require the support of the TDC (ie. land surveys) which has been very slow.

7. Ensure that all basic needs of all residents are met and that all residents contribute to the realisation of Auroville. The Prosperity Group has been invited to present to the FAMC an implementable plan.

8. Elimination of internal money exchange.
   a. Results of a small study conducted December 2020 to January 2021 revealed the following reasons given by external parties to pay by cash:
      i. I only have an international credit card and want to avoid the additional 2% bank charges you charge for credit card payments;
      ii. I have to pay too high bank fees on international credit card payments;
      iii. I have too much cash with me at the moment and prefer to pay in cash;
      iv. I don't have my mobile nor my bank card with me;
      v. I didn't know I could pay by debit card and didn't bring my card with me;
   b. Almost all internal transactions between Aurovilians and persons/entities with Financial Service accounts are done through the Financial Service and without cash.
   c. We continue to explore ways to encourage/promote digital transactions within Auroville, including the creation of a Financial Service “blue sheet” app.

9. Make capital available for the growth of existing income-generating units and start-up capital for new income-generating units. The Flourish initiative has launched a 3-month case study on internal investments and external investments. It must be acknowledged that capital is not the most urgent need or at least it is not the only need and has to be seen together with: human resources and space (office and production floors.) One example: Miniature has asked for permission to build a production space 2 years ago. They have the capital and human resources to grow the unit. But the permission to build has been delayed by TDC.

10. Strengthen and support the knowledge economy.
   a. The FAMC is working towards organizing a seminar on the topic. Lalit from Auroville Campus Initiative, and AV Consulting have both been asked to help to organize the seminar.
   b. Purnam Centre submitted a practical proposal for growing the Knowledge Economy which we understand has already received support and funding.
   c. Almost all internal transactions between Aurovilians and persons/entities with Financial Service accounts are done through the Financial Service and without cash.
   d. Housing survey to obtain accurate present information about housing and its occupancy in Auroville has already been started by the Housing Service.

12. Contributions by income-generating units to be reviewed (rationale of the 33% contribution; utilisation of surpluses). The FAMC is considering using the Citizens’ Assembly process to review and improve the Contribution Policy. The aim is to expand the scope of review in any case and have a new policy in place by August 2022.
(counseling, mentoring etc.) to the professional (project planning, financial resources, skills) in order for the activities to succeed. Some youth initiatives have been: HIVE, Joy of Impermanence, Eco-Village Education which became C4U (Come for Unity), Aura, Auroville Young Ambassadors, Saturday Grill, Pakka Box, and Inner World Studio.

b. Youth Centre Vision January 2022 recalls the original aims of the Youth Centre “The aims for the YC, stated at its inauguration were to include activities such as sports and physical education, training in forest management, gardening, agroforestry, workshops on life skills such as carpentry, mechanics and electronics, arts (painting, sculpting, carving), facilities, such as a literature and reference library as a base of peer-lead and self-lead learning and education, computer and internet facilities for research and communications, community events and gatherings to share, live and explore as a community.” In mid-February the Youth Center team met with the TDC. It was agreed to develop a Youth Center Vision and project which would be shared with the community. It was also agreed that once that is established, a project can be incubated.

c. Maarganam project (six-quarter rotating internship for Auroville youth) has been given support by the BCC. The project team is Chandresh and Priyamvada.

14. Reduce construction costs with innovative construction practices and effective and transparent price discovery mechanisms. No further action has been taken nor is planned by the FAMC.

REPORT OF THE FAMC
Over the month of March 2022

Members: Amy, Angelo, Jonas, Lisa, Marc, Palani, Ranjith, Stephan

Invitee: Under Secretary Mr. Srivivasamurthy

Secretaries: Svenja, Balaji; Madhan (Finance Secretary)

The FAMC would like to thank the residents for their feedback given on its previous report and on pending issues. This feedback is a great help to better do the work which the community has entrusted us.

This FAMC monthly report does not include regular liaison work with other working groups unless there is a final outcome, in which case the items may be reported in the reports of the respective working groups such as the Auroville Town Development Council (ATDC), Working Committee, Housing Board, Land Board, Auroville Council or the Budget Coordination Committee (BCC).

Please bear in mind that this is a report of decisions or events of a certain period and in the meantime changes, progress, or/ and collaboration might have occurred in any given subject.

1. Topics of special concern of the Office of the Secretary, Auroville Foundation (AVFO)

a. Cooperation with the AVFO.

The FAMC has reiterated to the Secretary, AVFO, that while the FAMC values and appreciates the interaction with the Secretary, Under Secretary and Auroville Foundation office, the FAMC is the FAMC of the Residents’ Assembly (RA), each of its members selected by the RA and mandated with certain roles and responsibilities by the RA. This has been acknowledged on numerous occasions by the former Governing Boards of the Auroville Foundation and future meetings can happen if this position is respected. However if this position is not respected and agreed to by the Secretary, then the FAMC will have to respectfully decline to attend joint meetings as the conditions and parameters of its work would be drastically changed beyond what the members have been selected to do by the RA.

After this communication some meetings with the AVFO are taking place, while the issue of which authority of the Auroville Foundation appoints the FAMC, the Governing Board or the Residents’ Assembly, is still unresolved. The Secretary has informed the FAMC that it is understood that the members of the FAMC have been nominated by the Residents’ Assembly and has suggested that the FAMC be endorsed by the Governing Board. The FAMC considers the latter as not required and has communicated the same to the Secretary.

b. Housing information requested by AVFO.

The AVFO has requested the Housing Board / Housing Service, which is a subgroup of the FAMC, for the following information for the last three financial years:

i. Housing allocations done with copy of the relevant minutes;

ii. House exchanges done with copy of the relevant minutes;

iii. Source and application of funds for housing;

iv. Source and application of house maintenance expenditure

The AVFO explained that “Since there are plans to add a significant number of houses in the near future it is even more important that housing / building asset data management is complete and accurate.” The Housing Board and Service responded to this request.

c. Housing survey requested by AVFO. The AVFO requested the Housing Service to undertake a physical survey of all Auroville buildings assets (housing and others) with details of the buildings and their utilisation and in the case of houses, the full names of the residents of the houses along with details such as their work in Auroville. The survey is being launched by the Housing Service.

The motivation for this request is “to ensure that the building assets (housing and others) of Auroville are correctly reflected in the Balance Sheet of Auroville Foundation.” The Housing Board has replied to the AVFO that the Housing Service balance sheets which have been submitted to the AV Foundation office, contain an overview of all the housing assets and that a physical survey will be taken up in due course. The AVFO was informed that non-residential assets and the personal details of the occupants such as their place of work are not within the purview of the Housing Service.

d. Maintenance details requested by the AVFO. The AVFO has requested details relating to payments of Aurovillian Maintenance from the Financial Years 2017-18 to 2020-21 e.g. number of Aurovilians in the payment roll; amount due per person per month; payment made to the number of persons monthly; list of Aurovilians to whom payments were made individually during March yearwise; and details of Aurovilians being given AV Maintenance with particulars of the work / service and the quantum. The FAMC has provided general maintenance information to the AVFO. Furthermore, as requested, the FAMC has made details available for the Aurovilians who receive(d) a maintenance provided from GOI grants.

e. Minutes 58th Governing Board meeting. The FAMC has requested the AVFO for copies of the meeting notes of the 34th meeting of the Finance Committee and for the ‘township development budget for FY 2022-23’, approved by the Finance Committee. Neither has been received by the date this report was sent to the News and Notes.

f. House occupation by non-Aurovilians in Equality community. The Secretary has still not taken any action, as earlier requested by the FAMC, to use her authority as Estate Officer to remove the family from the house.

g. Standardized accounts and dates of accounts submission. The FAMC has invited the executives and accountants of all units and Trusts to attend a workshop on April 2nd at the Unity Pavilion to further clarify the standard balance sheet and standard chart of accounts and the new balance sheet submissions dates:
i. the accounts of units and Trusts should be finished by 20th of April;
ii. the audited balance sheet of the Trusts must be submitted to AVFO by 31st May.

The reason is that the consolidated balance sheet of the AVF must have been audited by the CAG and submitted to Delhi by September 22.

2. Upcoming selection process.
The FAMC has informed the Residents Assembly Service (RAS) that three members will need to be replaced as Kalya resigned in May 2021, Marc’s term is over and he will not continue, and Palani wishes to resign.

3. Land matters
a. Delay in authorisation letters. The Land Board observed that there is a delay at the office of the Auroville Foundation in the signing of authorisation letters for registration of new land purchases, after the Land Board has followed its due diligence process and approval has been given by the Working Committee and FAMCs as per the current process. A new process has since been worked out for approval by the AVFO where the Working Committee will give the Land Board the authorization, instead of the AVFO. The new Due Dilligence Procedure has been sent to AVFO and its approval is awaited.
b. Arulvazhi school issue. The FAMC approves the position taken by the Land Board to not give compensation to the individual occupying a piece of paromboke land adjacent to the school.

4. Road planning and the potential demolishing of buildings.
The FAMC has asked the ATDC for details on the nature of buildings that would need to be demolished to make place for planned roads, in order to analyze the impact this will have on the residents of Auroville who are day-to-day caretakers, stewards, and managers of all these assets. The ATDC has replied that the designations of the structures are as mentioned on the maps provided to Housing Service. As most of these structures were built long time ago, and, to the understanding of the ATDC, started out as capsules in the hope of protecting land and being temporary, but turned permanent over time and have been provided stewardship certificates, the ATDC is unable to ascertain the proper date of construction through facts. Similarly the sizes might not match with reality.

The FAMC will create a list of the people who will be affected with the information contained on the maps.

5. General issues.
a. Friend of Auroville Stewardship agreement. A revised Friend of Auroville Stewardship Agreement was approved and sent to the Housing Board and Housing Service.
b. Special audits. The FAMC has contracted a firm of chartered accountants from Chennai to do special audits of three Auroville units and a collective housing project, the ATDC, the Working Committee will give the Land Board the authorization, instead of the AVFO. The new Due Dilligence Procedure has been sent to AVFO and its approval is awaited.
c. House in Aurodam. The FAMC has investigated why and how a house in Aurodam, for which the ATDC had given a No Objection Certificate (NOC) as a ‘residential’ construction, is being designated as a staff quarter of an Auroville unit.
d. Asset register. A consulted external Chartered Accountant confirmed to the FAMC that the Asset Register is compulsary under the Indian law. The FAMC is considering how Auroville units can best provide Asset registers.
e. Restructuring of Trusts and units. An FAMC subgroup is studying the possibilities of restructuring the current

6. Units and Trusts issues
a. Maternity Clinic Morning Star. The Working Committee has shared a legal opinion on the topic of the Maternity Clinic. The FAMC has asked the project holders for an updated estimate of the building costs and the funds available.
b. Vérité Integral Learning Center, a unit under Hospitality Trust an activity graduating into a unit, executives: Mr. Dhanya Pater & Ms. Chetna Punia. Approved

f. City Service unit. The FAMC obtained advice from an external Chartered Accountant that City Service unit should not be registered under a Trust but be registered directly under the parent entity, ‘Auroville Foundation’. The unit has been moved back to the parent entity ‘Auroville Foundation’ from Auroville Service Trust.
g. Work Tree, an unit under Kattida Kalai Trust (KKT). Change of Trust from KKT to Ankur Trust. Approved.
h. Papui or Somethingelse, a unit under GNP Trust. Unit closure. Approved.

OUTCOMES OF THE COMMUNITY BUDGETING PROCESS
Dear community, we are grateful to all who participated in our community budgeting process. The process is now complete, and we would like to share the outcomes and how these are being followed up.

Through this community budgeting process, the BCC aimed to understand:
1. What do Aurovilians consider to be priority areas for community funding? And how can this be reflected in budgetary allocations?
2. Are there any key services missing in our community, or existing services that should be budgeted for?
3. Where should funds come from to support our communal needs?

There were two levels of engagement:
• A series of presentations, Q&A sessions, and a survey open to the whole community
• Detailed in-depth facilitated discussions with a randomly selected group of Aurovilians.

18 randomly selected participants engaged in this process, 62 community members responded to the survey, and more attended the community presentations in person and online.

For an overview of the process, please see the following Auronet post: https://auroville.org.in/article/89471

How did participants feel about the process?
• The randomly selected participants shared the following feedback regarding the process:
  • Some participants were not sure if they had enough knowledge or understanding to contribute to the process, but found that the information provided was accessible and made it easy to engage

• Participants expressed appreciation for the transparency and openness shown throughout the process
• Participants observed that the process was well organised / well structured and that this supported their participation and ability to arrive at clear outcomes
• Participants appreciated the ‘random selection’ aspect of the process
• They shared that they would like to see other Working Groups engage community members through similar processes

What were the outcomes?
1. What do Aurovilians consider to be priority areas for community funding? And how can this be reflected in budgetary allocations?
Randomly selected participants considered the following sectors to the highest priority areas (and should receive more financial support from the City Services budget if needed/possible):
  • Farms / Food
  • Housing
  • Social Support (Maintenances)
2. Those who participated in the community survey indicated that they strongly agreed with this prioritization. Are there any key services missing in our community, or existing services that should be budgeted for?
Randomly selected participants identified the following as key missing services to be prioritized for City Services funding, in the following order (high to low):
1. Day Care / Maternity Support
2. Mentoring and Orientation Service primarily for young people (but all ages welcome) + Cheap social cafe for people of all ages (welcoming and accessible for families, children, new people and older generation)
3. Food Processing Service
4. Aquaponic / Hydroponic Food Production
5. Training & Support for Digital Work (including access to shared equipment)
6. Those who participated in the community survey agreed with this prioritization (although Training & Support for Digital Work was considered more important than Aquaponic/Hydroponic Food Production).

7. Where should funds come from to support our communal needs?
Randomly selected participants were asked if we should aim to get more or less funding from each existing source to City Services, and whether there were any additional sources we could consider.
They felt that income to City Services could have come from:
• Commercial Units (specifically, by encouraging new units and investing in existing units)
• Financial Services (specifically, by encouraging more deposits)
• Services (those that are income-generating)
• Foreign contributions (which currently are low)
• Guests (specifically, charging visitors for cultural events)
It was felt that the City Services budget could aim to be independent from GOI funding.
Those who participated in the community survey felt income could be increased from all existing sources.
Commercial Units and Foreign / Indian contributions (other than GOI grants) emerged as top sources for increased income to City Services across both groups.

8. Additional Suggestions Captured
Additional suggestions were captured during the facilitated sessions with the randomly selected participants, and as part of the community survey. These related to:
NEWCOMER ANNOUNCED:

The bodies responsible for reviewing these suggestions have been identified. In some cases, these are groups other than BCC (such as FAMC and the Housing Board); some suggestions require joint reviews between BCC and other groups. The BCC takes responsibility for any required handover or ensuring a joint review.

A more in-depth presentation (including graphs!) is available.

What happens with these outcomes?
• The BCC has presented these outcomes to the FAMC, who is ultimately responsible for approving the City Services budget.
• BCC is presently using the budgetary priorities that have emerged from this process in informing the upcoming budget. The BCC keeps in mind these outcomes (priority sectors and missing services) when reviewing new service requests.
• A BCC-FAMC subgroup is being formed to take forward the specific suggestions related to missing services and income sources to City Services. Some have already been taken up, such as reducing youth housing contributions.

We will keep the community updated with our progress. Thank you for your interest and participation!

The BCC would also like to thank Avisnath and Helen, who alongside BCC member Suryamayi played an important role in designing, facilitating, communicating and analyzing the outcomes of this process.

With best wishes, Your BCC members (Aurosugan, Danny, Enrica, Hans, Mahi, Mathan, Rathinam, Sacha, Suryamayi, Venena), Avisnath & Helen

BUS RIDERS TAKE NOTICE

Dear All, Auroville Accessible Public Bus had tried the current bus schedule for the last 8 months since August 2021. With our current bus schedule, we thought to encourage all, to use the public transport including the school students going to Pondicherry, Aurovilians, workers coming from Pondicherry, guests and Volunteers. Accordingly, we increased the number of trips since August 2021 from 2 trips to 4 round trips in a day between Auroville to Pondicherry.

Due to less interest from the public, we are planning to reduce the number of trips per day and save the fuel expenses. Therefore, we were thinking of providing the previous bus schedule (before covid-19) with little changes. At the same time, we wish to get the feedback and suggestions on bus timings from the regular bus users. So, we could finalize the new schedule accordingly from the month of May 2022.

Our Proposals:

Auroville To Pondicherry
- Trip 1: 07:00am from Svaram to Pondy
- Trip 2: 08:40am from Svaram to Pondy
- Trip 3: 02:50pm from Svaram to Pondy (Monday, Tuesday, Thursday & Friday)
- 04:20pm from Svaram to Pondy (Wednesday & Saturday)

Pondicherry To Auroville
- Trip 1: 07:45am from Ashram dining hall to Auroville
- Trip 2: 12:30pm from Ashram dining hall to Auroville
- Trip 3: 06:10pm from Ashram dining hall to Auroville (Monday, Tuesday, Thursday & Friday)
- 08:10pm from Ashram dining hall to Auroville (Wednesday & Saturday)

We will be happy to receive your Suggestions & feedbacks by 19.04.2022.

LET’S TALK ABOUT DEATH, 2ND YEAR, PART IV

Saturday, 16 April, Center Guest House, 3:30 – 5:30pm

Our next sharing will happen on Saturday, 16 April, at 3:30pm at Center Guest House.

We, the ‘Let’s talk about Death’ group, do think that, since life and death are deeply entangled, living fully conscious today prepares a conscious and meaningful passing away. Thus, we intend to provide space, time and content on the topic of Death in Auroville.

Our aim is to offer a space for personal experience and insights on Death. During our sharings, there is no lecture, material distribution or convincing people of one’s opinions or beliefs. The sharing is open to all ages, for Aurovilians, Newcomers and long term Savi Volunteers.

Furthermore, talking of one’s own experience is not mandatory. Sometimes, one prefers just to attend, listen or just to reflect within.

We hope to see you on Saturday 16 April 2022 at Center Guest House. We’ll start at 3:30pm with coffee & cake, followed by sharing until around 5:30pm.

Please, come without booking, but open minded and with care for one another.

CELEBRATE THE AUROVILLE THEATER GROUP’S
25TH ANNIVERSARY

April 29 and 30, CRIPA, Kalabhumi, 7:30pm

Dear Friends: please join us as we Celebrate the Auroville Theater Group’s 25th Anniversary on April 29 and 30, at CRIPA, Kalabhumi. The fun starts at 7:30pm.

We are quite excited to share with you scenes from our 25 years on the Auroville stage(s) – and beyond – performed by members of our Fundamentals Of Acting Workshop. Some scenes will be performed by the actual actors who first created the roles. There’ll be music, good food and surprise guests, so join us, won’t you!

It’s quite an achievement for us to have completed 25 years of continuous theater. Even during the lockdown in 2020, we managed to go online and create a Zoom version of our beautiful and very relevant play A Place Called Home. Look for it on our YouTube Channel.

So many actors, designers, composers, dancers, stage managers, have passed through the Auroville Theater Group, each one adding to our adventure here in Auroville, to the richness of our work on the stage as we get introduced to their stories, their studies, their talents, their hopes and dreams. And they have discovered Auroville in the process! So as part of our 25th Anniversary we’d like to honor them and say a huge “Thank You”:

With love and gratitude to Sri Aurobindo and the Mother for giving us a new life, a new way of living...

VISION OF FUTURE MOBILITY
New E-Scooter Battery Swapping Station at KINISI
April 22, KINISI open house, 10am to 4pm

On Earthday April 22, 2022, you are invited to our KINISI open house from 10 am to 4 pm, showcasing our new e-scooter with battery-swapping station.

1. KIM members will enjoy a collective pool of e-scooters, with a battery-swapping station, so that they can go to Pondy as the need arises. This will be on a “pay as you go” basis.

2. To help Auroville units reduce their CO2 emissions, KINISI will facilitate the purchase of battery-free e-scooters by the units and provide the swappable batteries. This will greatly reduce the initial cost of purchasing e-scooters, as the batteries will be owned and maintained by KINISI. Users can exchange their near empty battery for a fully-charged one at the swapping station, thus removing waiting time for charging.

We are working on several payment plans for the units to choose from. We will do pilot projects to see the feasibility and are open to all schemes for all the units and activities. All units are welcome to come and check out the scooter on the 22nd.

Your KINISI team

ARIMUGAM: RELATIONSHIP BUILDING THROUGH INTRODUCTION
Ramanujan an intuitive genius, when asked where his mathematical solutions came from, he would say ‘they come from my Devi’ Entrepreneurship of all forms and manner, involves all the five facets of the human consciousness – physical, emotional, intellectual, spiritual and creative to bring an idea to life.

That being said human labour of all forms imbibe “Integral Yoga”. Involving the process of synthesis hence every person in the multiverse is a catalyst in the experiment of “future realisations”.

The journey is more becoming rather than to be as one is always in transitional growth. All the while being inspired and contributing to the environment and people around us.

The dream is to go on an ethereal experiential exploration of life, filled with both joy and mystery of the road ahead to be walked in wonder.

There are many services available to foster and grow the drive to be all that one can be. Arimugam would be for those still in the process of shaping themselves and their dream on the pathway to experiential awakening.

Growing food for Auroville, Your help is needed

Siddhartha Farms mission to grow organic food for the community depends on functioning infrastructure and machinery. At present our old tractor is in very poor condition and will need costly repairs, therefore we have decided to move forward to get a new one with equipment. The old one will bring 1.25lahks, the needed balance is 8.75lahks. If you would like to make a donation towards it, it will be highly appreciated, our FS account is #0486.

Many thanks for your support, Siddhartha Farm Team
Auroville wants to be a spiritual community. Its diaspora consists of people from around the world, from all walks of life with varied background, ambitions, aspirations, goals and their innate need to be a member of the society. Auroville also wants to invite the youth of the world to come and learn to be the willing server of the Divine Consciousness, to build a society that is self-governed, that is built with engagement in Karma Yoga in myriad areas of the community. Auroville community has been experimenting with various methods, modalities, processes and is yet to find satisfactory or effective means to bring about selection of the members to constitute its working groups.

Our continual seeking to bring about the members who are representative from a variety of criteria and such other means and processes to choose or to eliminate as the case may be makes us little different than any other society outside. The recent past has witnessed an increasing method of voting as the means to bring about the voice and choice of the peoples. If this “democratic” process was the best possible way for a human diaspora for selection, then America represents the widest and largest gathering of the humans in today’s time and in the history of humanity is better suited to work out these modalities. India, Auroville’s mother land, has an equally large and impressive gathering of varied spiritual diaspora to work out the evolutionary movement. Is Auroville only this?

Our call is to be willing servitors of the Divine Consciousness. We are invited to become a spiritual society. We are invited to explore new ways, spiritual means to seek our hierarchy for work and organization. The Matrimandir is now built and it represents our collective aspiration to the Divine. It is now open for each of us to go there, spend time and learn to concentrate and be united with our psychic. Each represents the unique aspect of what he/she is brought here to be in order to provide and take a role to partake in the building and organization of Auroville. The aspiration for whatever one wants to offer, to be, is, or needs to be will be molded into its true form when this regular engagement to seek and unite with the Divine Consciousness becomes a movement within the community. It may even open up new ways for our understanding of each other when we regularly open to the collective aspiration for the manifestation of Human Unity. Spiritual methods and means to self-organize may also emerge. Without a collective movement for a spiritual change that is to manifest, Auroville will progress at the pace of Nature as has been witnessed over the last many decades.

CONCEPT NOTE:
AURO PĀLAM, BRIDGE TO OPPORTUNITIES

Our ethos has always placed the utmost importance on the relationships with the villages and villagers which are within and around a critical aspect of the ecosystem. We look to the horizon and introspect the reach of our shared endeavor. As we know in every journey there are always those who need an aid in coming out of their shell of hesitancy. Aura Pālam would be their bridge for their aspirations and link to opportunities for growth and development.

Akin to the town crier of lore and before sharing pertinent and critical information to the people of the communities. Even in today’s technological age we still yearn for human interactions. A species of communication and communities we seek to share and receive in the physical sense of oneness. Our knowledge of physics shows us that a signal reduces in its intensity as the distance grows and reach dissipates in strength. A signal booster that Aura Pālam can be for those who live outside the reception circle would be a service in every sense of the word.

Providing them with information about the possibilities to grow themselves and their communities. A pavilion, seated circle of sharing in the villages adjacent to Auroville, and the villages in the greater bio-regional area. Aura Pālam, bridge to opportunities in human unity and equal opportunities.

Aura: the distinctive atmosphere or quality that seems to surround and be generated by a person, thing, or place. “Auroville wants to be the bridge between the past and the future. Taking advantage of all discoveries from without and from within, Auroville will boldly spring towards future realizations”. The Auroville Charter

Birenda Massage Course with Jean-Louis & Sivacoumar

• Thursday 21 – Sunday 24 April &
• Saturday 30 April – Sunday 1 May (36 hours)
• Timings: 9.00 am – 5.00 pm (lunch included)

Birenda massage is a soft and profound wellness therapy, which leads the client into a state of deep relaxation in which the body is fully felt and experienced. At the same time, it provides an inner journey within oneself during which energy blockages and tensions are revealed, so that they can be recognized, released and transformed.

Birenda, a Bengali with 50 years of experience, developed this massage therapy and transmitted his unique approach to Jean-Louis in person. Jean-Louis, who has been offering Birenda Massage over the past 25 years, has committed himself since several years to teaching this innovative body treatment to both beginners and experienced therapists in India and abroad. Sivacoumar has been working as a Birenda massage therapist for the past three years. During this period, he was personally trained by Jean-Louis to become a Birenda massage instructor and co-teaches this course together with him.

The course consists of 3 sections of 2 days each: the first part is dedicated to back massage; during the two other sections, you’ll learn how to massage the legs, arms, abdomen and front of the body. You’ll also learn how to prepare yourself before massaging a person, create a trusting relationship with your client, and offer relevant information afterwards.

You’ll receive a manual with detailed instructions — both in text and colour pictures — for practice on family members and friends. A certificate is provided upon completion of the full course.

THE QUEST OF ALL QUESTS: DISCOVERING WHO WE ARE

The Complexity of a Human Being and Its Potential

As mentioned earlier, my burning quest to understand the mechanics of life, of dis-ease, of suffering, of death and of existence itself has brought me to all sorts of experiential circumstances, major life event shifts leading to another, in all sorts of settings or places and conditions, with pleasing and unpleasant sensations and all the other contrary feelings of experience...

Eventually leading me to Sri Aurobindo and the Mother, and their Auroville.

The Quest has become more interesting, to say the least. Here the Mother reveals the complex structure and the mechanics of a human being. It is cutting edge information and way ahead of its time in terms of understanding who this bundle of We really are, and how to move on forward with our Spiritual Evolution at this critical juncture of our shared progress not only here in the City of Dawn, the cradle of the transitional beings, but all over Earth with all receptive evolutionaries:

“The Steps Of The Soul

The human individual is a very complex being: he is composed of innumerable elements, each one of which is an independent entity and has almost a personality. Not only so, the most contradictory elements are housed together. If there is a particular quality or capacity present, the very opposite of it, annulling it, as it were, will also be found along with it and embracing it. I have seen a man brave, courageous, heroic to the extreme, flinching from no danger, facing unperturbed the utmost peril, truly the bravest of the brave; and yet I have seen the same man cowering in abject terror, like the last of poltroons, in the presence of the brave; and yet I have seen the same person I have also found to be the vilest of misers with respect to certain other considerations. Again, I have seen the most intelligent person, with a clear mind, full of light and understanding, easily comprehending the logic and implication of a topic; and yet I have seen him betraying the utmost stupidity of which even an ordinary man without education or intelligence would be incapable. These are not theoretical examples: I have come across such persons actually in life.

The complexity arises not only in extension but also in depth. Man does not live on a single plane but on many planes at the same time. There is a scale of gradation in human consciousness: the higher one rises in the scale the greater the number of elements or personalities that one possesses. Whether one lives mostly or mainly on the physical or vital or mental plane or on any particular section of these planes or on the planes above and beyond them, there will be, accordingly, differences in the constitution or psycho-physical make-up of the individual personality. The higher one stands, the richer the personality,
because it lives not only on its own normal level but also on all the levels that are below it and which it has transcended.

The complete or integral man, some occultists say, possesses three hundred and sixty-five personalities; indeed it may be much more. The Vedas speak of the three and thirty-three and three hundred and thirty-three thousand gods that may be housed in the human vehicle – the basic three being evidently the triple status or world of Body, Life and Mind.

What is the meaning of this self-contradiction, this division in man? To understand that, we must know and remember that each person represents a certain quality or capacity, a particular achievement to be embodied. How best can it be done? What is the way by which one can acquire a quality at its purest, highest and most perfect? It is by setting an opposition to it. That is how a power is increased and strengthened – by fighting against and overcoming all that weakens and contradicts it. The deficiencies with respect to a particular quality show you where you have to mend and reinforce it and in what way to improve it in order to make it perfectly perfect. It is the hammer that beats the weak and soft iron to transform it into hard steel. The preliminary discord is useful and needs to be utilised for a higher harmony. This is the secret of self-conflict in man. You are weakest precisely in that element which is destined to be your greatest asset.

Each man has then a mission to fulfil, a role to play in the universe, a part which he alone is capable of executing and none other. This he has to learn and acquire through life-experiences, that is to say, not in one life but in life after life. In fact, that is the meaning of the chain of lives that the individual has to pass through, namely, to acquire experiences and to gather from them the thread – the skein of qualities and attributes, powers and capacities – for the pattern of life he has to weave. Now, the inmost being, the true personality, the central consciousness of the evolving individual is his psychic being. It is, as it were, a very tiny spark of light lying in normal people far behind the life-experiences. In grown-up souls this psychic consciousness has an increased light – increased in intensity, volume and richness. Thus there are old souls and new souls. Old and ancient are those that have reached or are about to reach the fullness of perfection; they have passed through a long history of innumerable lives and developed the most complex and yet the most integrated personality. New souls are those that have just emerged or are now emerging out of the mere physico-vital existence; they are like simple organisms, made of fewer constituents related mostly to the bodily life, with just a modicum of the mental. It is the soul, however, that grows with experiences and it is the soul that builds and enriches the personality. Whatever portion of the outer life, whatever element in the mind or vital or body succeeds in coming into contact with the psychic consciousness – that is to say, is able to come under its influence – is taken up and lodged there: it remains in the psychic being as its living memory and permanent possession. It is such elements that form the basis, the groundwork upon which the structure of the integral and true personality is raised.

The first thing to do then is to find out what it is that you are meant to realise, what is the role you have to play, your particular mission, and the capacity or quality you have to express. You have to discover that and also the thing or things that oppose and do not allow it to flower or come to full manifestation. In other words, you have to know yourself, recognise your soul or psychic being.

For that you must be absolutely sincere and impartial. You must observe yourself as if you were observing and criticizing a third person. You must not start with an idea that this is your life’s mission, this is your particular capacity, this you are to do or that you are to do, in this lies your talent or genius, etc. That will carry you away from the right track. It is not the liking or disliking of your external being, your mental or vital or physical choice that determines the true line of your growth. Nor should you take up the opposite attitude and say, “I am good for nothing in this matter, I am useless in that one; it is not for me.” Neither vanity and arrogance nor self-deprecation and false modesty should move you. As I said, you must be absolutely impartial and unconcerned. You should be like a mirror that reflects the truth and does not judge.

If you are able to keep such an attitude, if you have this repose and quiet trust in your being and wait for what may be revealed to you, then something like this happens: you are, as it were, in a wood, dark and noiseless; you see in front of you merely a sheet of water, dark and still, hardly visible – a bit of a pond imbedded in the obscurity; and slowly upon it a moonbeam is cast and in the cool dim light emerges the calm liquid surface. That is how your secret truth of being will appear and present itself to you at your first contact with it: there you will see gradually reflected the true qualities of your being, the traits of your divine personality, what you really are and what you are meant to be. One who has thus known himself and possessed himself, conquering all opposition within himself, has by that very fact extended himself and his conquest, making it easier for others to make the same or a similar conquest. These are the pioneers or the elite who by a victorious campaign within themselves help others towards their victory.”
